THIEVES MAKE A GREAT HAUL

Chicago Postoffice Stamp Vault is Tunneled and Over $70,000 in Stamps Stolen.

A CLEVER JOB AND NOT A CLUE

Chicago, Oct. 21.—A sensational robbery which netted the perpetrators $74,610 in stamps was discovered here this morning when the stamp department of the postoffice was opened for business. A rapid investigation developed the fact that the burglars had crawled under the flooring for about 300 feet, bored a hole in the bottom of the vault, secured the stamps and escaped, carrying their booty in a wagon.

The work of forming an entrance to the vault had evidently been going forward with the greatest patience for many days. It is believed, however, that the intention of the thieves has been to enter the cashier's vault, in which there was $35,000 in money and stamps valued at hundreds of thousands of dollars. The bottom of the vault is of steel half an inch thick. In this ninety- seven holes were bored until a space eighteen inches square—just enough to allow the entrance of a man's body—had been so weakened that it was possible to take out the whole plate with little difficulty. A dry goods box stood over the hole this morning and concealed the work of the robbers while in was in progress. When discovered today the finger marks of one of the burglars were still discernible on the dust of the box, which he had pushed to one side.

JOB SKILLFULLY PLANNED.

So skillful had the job been planned that men working in other parts of the building had not the slightest inkling of the daring robbery being worked almost under their noses.

The robbers drove up to the southeast corner of the postoffice building in a wagon, the tracks of which could be seen plainly today. The building is a temporary affair and the men had only to open a little door to admit themselves under the flooring. To reach the vault it was necessary to crawl about 300 feet over odds and ends of boards which littered the way. The route evidently had been carefully studied, for a detective who went under today without knowledge of locations became lost and was nearly overcome by the foul odors before assistance reached him. Having secured their plunder, the robbers loaded it into the wagon, drove across a vacant lot and turned into Wabash avenue in front of the art building.

Of the $74,610 in stamps taken, $4,712 were in postage stamps and $2,060 in special stamps. So the convertable stamps amounted to $67,828, but of these $4,828 were Pan-American stamps of eight and ten-cent denominations.

Spalding, chief clerk of the wholesale stamp department, discovered the robbery when he opened the vault at 7:50 o'clock. The safe had been locked, with its contents apparently secure, at 5 p. m. Saturday. Mr. Spalding notified Inspector Stuart, who hurried from his home and immediately began an investigation, assisted by his deputies and a squad of detectives.

LARGEST STAMP ROBBERY.

After completing the search Inspector Stuart said:

"It was the largest stamp robbery ever committed in the history of the postal service in this country. To get to the vault the men dug through the brick foundation wall and a hundred feet or so further on they encountered another wall, and this also they dug through. On the way they met with a number of pipes, and as the floor is but two feet and in some places three feet above the ground, they tunnelled under the pipes. Their whole course is plainly marked in this way. The wholesale stamp vault, like the cashier's vault and the money order vault, is supported by a brick wall. It forms a square and, before the robbery, was air tight. In this the robbers broke two holes, possibly to secure more air, for the place undoubtedly was very foul, or to have an extra place of egress in case of discovery. For light they used dry batteries, one of which they left behind. This battery and the wagon tracks are the only clues we have at present.

HOW IT WAS DONE.

"The space under the vault is sufficiently large for a man to stand upright and their work must have been comparatively easy with the drills and steel saws which they used. The stamps were arranged in twenty-pound bundles, and the weight of the load they carried off must have been 500 pounds. Evidently one man handed the packages down to others waiting below. As their progress must have been slow carrying even one bundle through all those tunnels, crawling on all fours, I judge they worked for hours getting their booty to the wagon.

"Apparently they felt perfectly safe, though somewhat disappointed at missing the cashier's vault, where there was $35,000 in cash and a great quantity of stamps. I cannot tell now how many men worked at the job. Every effort will, of course, be made to recover the property, and capture the men who took it."

Postmaster Frederick E. Coyne is in Washington. He is responsible for the loss till an act of congress frees him from it. For amounts up to $2,000 the postmaster general has authority to relieve postmasters.

Of the stamps stolen 1,776,000 were one-cent and 1,662,900 two-cent stamps. The robbers got 150 $1, 307 $2 and 105 $5 stamps also, but Inspector Stuart said he thought they would have difficulty in disposing of the larger denominations.

PLAINTIFF WANTED MILLION

COURT GAVE A VERDICT FOR $40,300.

Judgment Rendered in a Suit Concerning the Manufacture of a Wall Finish.

Grand Rapids, Mich., Oct. 21.—The $1,000,000 damage suit of Melvin B. Church vs. the Anti-Kalsomine company, of this city, was today decided by Judge Wolcott, of the circuit court, who was chosen as arbitrator after a jury had disagreed at the trial several weeks ago. He awarded the plaintiff a verdict for $40,300.

Church was the inventor of a certain wall finish and had a contract with the Anti-Kalsomine company, which manufactured the product. He alleged that the officers of the company violated this contract by organizing another company to compete with the Anti-Kalsomine company. The award is based on the alleged violation.

COUNTED THE COTTAGES.

Some of the Fort Wayne visitors to Rome City yesterday made a count of the summer cottages which dot the shores of Sylvan lake and bring the information that the total number of summer homes erected there is 141 Of this number it is estimated that at least one-half are owned by Fort Wayne people, and from fifteen to twenty have been erected during the past year. Preparations are also under way for a number of new cottages which will go up next year, and Rome City is destined beyond a doubt to grow in favor with Fort Wayne people as a summer home. Another feature noted is that the cottages recently erected are much better and more substantial than those which were first built.

The Women's Christian Temperance union will meet tomorrow afternoon at 2:30 o'clock, at the home of J. W. Burns, 52 Brackenridge street. Reports from the state meeting recently held in Kokomo will be heard.

READY TO BEGIN

DUNN MURDER TRIAL STARTS TOMORROW.

OPENING SET FOR 10 O'CLOCK

SPECIAL VENIRE OF EIGHTY HAS BEEN DRAWN.

MAY SECURE JURY IN A DAY

TRIAL MAY BE COMPLETED IN TEN DAYS.

Tomorrow morning at 10 o'clock, before Hon. Edward O'Rourke, in the Allen circuit court, will be called the case against Charles Dunn, of Wallen, indicted by the recent grand jury for the murder of little Alice Cothrell at Wallen in July last.

Far more than ordinary interest centers around the already famous case, and during the past few days the court officials, attorneys for both the prosecution and the defense, as well as Sheriff Stout and his deputies have been actively engaged in completing the final details for the beginning of the trial. The summoning of the special venire of eighty names drawn by the jury commissioners some weeks ago has just been completed, and the list is now first made public.

THE SPECIAL VENIRE.

Levi Chase, Eel River township: Harry Snyder, Aboit; Alfred O. Buchman, city; Ernest Henschen, city; Asa E. Gillespie, city; Charles Figel, Madison; William Showe, Washington; Phillip Michels, Adams; William Smith, Jackson; John Groshean, Lake; August Merrilet, Jefferson; James M. Yerks, Milan; William Thiel, city; Frank Wickliff, Lafayette; Bonifacius Bangert, city; William McBride, Lafayette; John Sargeant, Marion; J. F. McCormick, Eel River; Reuben Hudson, Jefferson; John M. Henry, city; Nelson O. Bart, Pleasant; James Danehey, city Peter Gressley, Madison; Lafayette Perkins, St. Joe; Fred Galmeier, Milan; John Burkhart, St. Joe; Charles Horning, city; Frank J. Gruber, city; Henry Jackson, Adams: James B. Robinson, Pleasant; Cassius Miller, city; Jacob H. Kimmel, Pleasant; David Vanzille, Cedar Creek; John Langard, city; C. P. Benward, Eel River; Andrew Bloom, St. Joe; Frederick Dorr, Monroe; George Mumma, Monroe; George Warcup, Perry; John Ocleston, Aboite; Fred Buuck, Marion; Joseph A. Haley, city; Isaac Gorrell, Springfield: George Zeimer, Springfield; Joseph Giant, Jefferson; John Hartzell, Adams; William Wyat, Cedar Creek; Stephen Drew, city; William Hatfield, Washington; William Perkins, Springfield; William Smith, city; Joseph B. Saunders, city; George Pfeiffer, Washington; Joseph Auth, Marion; George A. Morton, Marion; Louis Uplegger, city; J. Franklin Mommer, city; William Lahoman, Marion; Frank M. Johnson, Maumee; Harrison Hursh, Cedar Creek; Fred Hockmyer, Adams; Charles Gohean, Eel River; Joseph Guston, Maumee; Louis C. Zollinger, Jefferson; David Updyke, Cedar Creek; William Kinerk, Pleasant; Paul Trear, Adams; Alexander Woods, Pleasant; Ernest Heiser, Marion; James Preston, Perry: Benjamin Sowers, Scipio; Pacific Shafter, St. Joe, and Jacob Smith, Perry.

When the officers came to serve the official notifications upon the prospective jurors drawn it developed that three of the names drawn were of persons who had died within the past few months. Nearly every portion of the county is represented in the list, and seventeen of the number are from the city. The name of at least one gentleman who is a witness in the case happened to come out of the box with the others when the names were drawn by the jury commissioners.

IT MAY TAKE A DAY.

The concensus of opinion, both upon the part of the prosecution and of the defense, is that an acceptable jury can be secured in about a day, so that in all likelihood the taking of testimony can begin on Wednesday. Prosecutor Emrick thought it uncertain. A jury might be selected in a few hours, and it might take a day. Attorney Colerick, the chief counsel for Mr. Dunn, placed his estimate at twenty-four hours.

Both prosecution and defense have gone deeply into the case, and while Prosecutor Emrick expresses confidence in the state's case against the accused man, Mr. Colerick appears equally confident of Dunn's acquittal. Both believed the case would not extend over a period exceeding ten days. Nearly seventy witnesses have been summoned by the state, and Mr. Colerick said today that the defense would present from thirty to forty witnesses upon their side of the case.

It is understood that the defense is manifesting some anxiety over the absence from the state of a witness whom they deem of especial importance. Being outside the state the attendance of the witness can hardly be procured unless she voluntarily returns to the state in time to give her testimony.

This morning court room No. 2, the one next south of the circuit court room, was supplied with about 150 extra chairs, which were placed by the janitors of the building. This room is being prepared as an assembly room for the extra eighty jurymen and the hundred or so of witnesses who will be present to testify in the Dunn case. The circuit court room, large as it is, would be found entirely inadequate to accommodate all the persons directly interested in the trial.

CELEBRATE DOUBLE WEDDING

GOLDEN AND SILVER ANNIVERSARIES OBSERVED.

Mr. and Mrs. Peter Hohnhaus and Mr. and Mrs. Fred Eisennacher Entertain Friends Sunday.

A "double-header" wedding anniversary was celebrated on Sunday afternoon at the residence of Mr. and Mrs. Peter Hohnhaus, 63 Wall street. it being the occasion of the fiftieth anniversary of Mr. and Mrs. Hohnhaus' marriage and the twenty-fifth anniversary of the wedding of their daughter and her husband, Mr. and Mrs. Fred Eisennacher.

The celebration was preceded by a special sermon in honor of the occasion by Rev. H. P. Dannecker, of St. John's Lutheran church, at 2 o'clock. The church was crowded to the doors and an interesting feature of the service was a special program of music by the choir. At the close of the service friends and relatives to the number of about a hundred gathered at the Hohnhaus residence and the afternoon and evening were spent in a most delightful manner. Among those present were the members of St. John's choir and the quartet of the church, and during the afternoon and evening some excellent music was furnished.

At 6 o'clock supper was served and the assembled guests did ample justice to the good things under which the table groaned. Mr. and Mrs. Hohnhaus and Mr. and Mrs. Eisennacher were toasted frequently and they responded in a most happy manner. They received numerous handsome gifts, golden for the former and silver for the latter. The festivities were continued until a late hour, when the guests departed, wishing the two couples many happy returns.

Mr. and Mrs. Hohnhaus celebrated their silver wedding anniversary twenty-five years ago, and on that day their daughter became the wife of Mr. Eisennacher. There are two sons, Prof. Carl Hohnhaus, of Buffalo, and George Hohnhaus, of Chicago; a daughter-in-law, Mrs. Gust Ryan, and six daughters, Mesdames Christ Greiner, Fred Eisennacher, William Brudi, Fred Roembke and George Hohnhaus and Miss Dora Hohnhaus. There were twenty grandchildren present yesterday. The house was handsomely decorated in yellow, white and green, chyrsanthemums and palms being used.

Mr. Hohnhaus is foreman of street repairs and is one of the oldest and most respected citizens in Fort Wayne.

LECTURE WAS INTERESTING.

A fair-sized audience at the rooms of the Commercial club Saturday evening heard Dr. W. H. Tolman, of New York, deliver his lecture on "Social and Industrial Betterment." It was profusely illustrated with stereopticon views and was splendidly given. Dr. Tolman dealt at length with the relations between employer and employe as they exist in many of the larger cities of the country, and told how they might be made more satisfactory. While his lecture was entertaining and instructive, it had perhaps little application in Fort Wayne, for the reason that conditions here are far more admirable than many of those pictured by Dr. Tolman. As a student of socialogy Dr. Tolman has delved deeply into the relation between capital and labor, and he makes a powerful plea for a high philanthropy.

Mrs. Henry Buhlman, of 90 Baker street, is seriously ill.

BANK ISSUES STATEMENT

THIEVES SEEM TO HAVE MADE THE BANK AGREE.

Lowell, Mass., Oct. 21.—The following statement was made by the directors of the Merchants' National bank:

"The time has arrived when the president and directors of the Merchants' National bank feel that a statement is due the public. Certain securities belonging to the bank were taken from its vaults through the collusion of two of its employes, but have been returned.

"The capital stock of the bank is $400,000 and its surplus and undivided profits $294,600. Both are intact except a deficiency of $115,000, which reduces the surplus and undivided profits to $179,600."

It is understood that the deficiency represents the amount lost through the operations of Teller A. S. Smith and Bookkeeper L. K. Swift before they disappeared last Thursday night.

At 2 a. m. today a number of bags, apparently containing money and bundles of documents, believed to be the missing bonds and bank securities, were delivered to the Merchants' National bank by Lawyer Burke, of Lowell, and Mr. Bartlett, of Elder & Bartlett, of Boston.

As these lawyers have been understood to represent the absent bank men and as the statement was made that the men cleaned out the bank vault before they left in order that they might be in a position to compel the officials to promise immunity from punishment for any wrong-doing which might come to light, it is considered probable that the men have reached an understanding with the bank's managers, and that the property of the institution was returned as a result.

A bank examiner from Washington began work on the books yesterday. The doors opened as usual at 9 o'clock today.

PROGRESS OF SCHLEY CASE

INQUIRY RESUMED AFTER A BRIEF REST.

Captain Cook Again Takes the Stand —Lieutenant Wells Praises Bravery of His Chief.

Washington, Oct. 21.—After two days' rest the Schley court of inquiry resumed its sessions at 11 o'clock today. The court was, as usual, prompt in beginning the proceedings, and not only the members of the court but counsel were apparently in brighter and fresher frame of mind than usual.

After the witnesses of former days had been recalled for the purpose of correcting their testimony Lieut. B. W. Wells, jr., secretary to Commodore Schley during the Cuban campaign, resumed the testimony which he had begun on Friday. After a few preliminaries, he began his narration of the battle of July 3 and was then questioned at some length by Mr. Raynor before he was turned over to Captain Lemly and Mr. Hanna for cross-examination.

Other witnesses called for the day were Mr. Edward Graham, the Associated Press correspondent, who was with Commodore Schley on the Brooklyn from the beginning of the campaign at Hampton Roads until its close; Lieut. Edward Simpson, who served on the Brooklyn, and Mr. Dennis J. Cronin.

CAPTAIN COOK RECALLED.

Among the former witnesses recalled was Capt. Francis A. Cook, who returned to the stand for the purpose of making an explanation of his former testimony regarding the boilers of the Brooklyn.

Captain Cook, who commanded the Brooklyn during the Spanish war, was the first new witness of the day. He was recalled at his own request and made the following statement:

"In my testimony I stated that the Oregon on the morning of July 3 was under all boilers, having shifted her boilers from forward to aft. I stated this from hearsay and presumed it to be correct as accounting for her extraordinary speed. I find that she had not shifted boilers that morning, but that she had steam on all her boilers at all times while in the Santiago blockade."

Captain Cook then was excused and former witnesses were called to correct their testimony.

Other witnesses corrected their testimony and Lieut. B. W. Wells, jr., who was on the stand when the court adjourned Friday, was then recalled and testified regarding the battle of July 3. He said he did not remember the ranges at which the Brooklyn fired, but thought 1,100 yards was the shortest. He described the turn of the Brooklyn and the chase after the Spanish ships.

When the Vizcaya ran ashore the Colon was about 10,000 yards ahead of the Brooklyn and for a time firing ceased. He said that he had received orders to get up a quantity of rapid fire ammunition. Owing to the character of the coast it was expected that the Brooklyn and the Colon would come to close quarters.

He was ordered to have this ammunition ready to close with the Colon and give her a rapid fire when they got close together. He then described the rest of the chase and the final surrender of the Colon.

He said he had not seen the Texas when the Brooklyn made her turn. At one time during the battle, he said, the Brooklyn seemed to be alone, engaging three ships.

Mr. Raynor: "Am I right in saying that you perhaps saw more or as much of Commodore Schley during the whole of this Spanish war as any one else and came in contact with him as much as anybody?"

"I saw him daily and all through each day, generally speaking."

"Did you see him during the time of the reconnoisance on March 31?"

"Yes, sir."

"Did you see him frequently during the day of the battle on July 3rd?"

"No sir. I only saw him during the chase of the Colon."

"Did you see him during any of the bombardments?"

"I saw him during one of them. Exactly which one I cannot distinctly recollect."

"What was his bearing, conduct and manner on any day in which there was a battle, or any other time?"

"So far as my observation went he was thoroughly fearless and self-possessed on all occasions."

"Was he at any time within your knowledge laboring under any mental excitement?"

"No sir."

When Lieutenant Wells had finished his description of the battle the question of dispatches were taken up.

ECHO OF AN OLD MYSTERY

MRS. MESSLER GETS JUDGMENT FOR $5,000.

Wife of Israel Messner, Whose Disappearance Caused Anxiety at First.

In the circuit court this morning Mrs. Mary D. Messler was given a judgment against Israel Messler for $5,000. The suit is one brought by the wife against the husband for an accounting in which she claimed $10,000. The judgment was by default, the defendant not appearing, and the verdict being on the showing made. The parties were formerly well-to-do farmer people in Lafayette township, where they toiled jointly for many years. Finally they removed to the city, and after purchasing a residence in South Wayne their troubles began. Last winter the defendant converted his property, or most of it, into cash and went away, after drawing all his money out of bank. At the time he said he was going to Iowa, and to some he said he was going to California; anyway he went somowhere and the wife was left alone.

When Messler at first disappeared there was much mystery surrounding the incident and his wife and friends were given much apparent anxiety. It was feared that the large amount of money he was known to have about him at the time had proved a temptation to foul play.

FEEL CONFIDENT

AT WASHINGTON OF SAVING MISS STONE'S LIFE.

BY DIPLOMACY, IF POSSIBLE,

IF NOT THEN PERHAPS IT MAY BE BY FORCE.

NO LATE NEWS RECEIVED

RUSSIA'S POWERFUL INFLUENCE AT WORK.

Washington, Oct. 21.—There has been no reports received since Saturday at the state department from Turkey or Bulgaria touching Miss Stone's case. The officials, however, are by no means discouraged and are still confident that they will succeed in saving her life, but whether by diplomacy or by force is not clear. It is gathered that the friendship of the Russian government has responded in the most cordial spirit to the appeal of the state department which, unable itself from geographical and political reasons to exert pressure upon the government of Bulgaria, has been pleased to avail itself of the powerful influence of Russia on that government. The Turkish government has for its part responded in the same spirit to the appeal of the United States and altogether the two governments, Turkish and Bulgarian, probably have been put to a degree of expense equal to the amount of the ransom demanded by Miss Stone's captors in the military operations they have already directed in her interests.

PRIZES AWARDED.

This evening, at Library hall, will occur the presentation of the first and second prizes to the athletes who participated in the events of the Library Hall Athletic association's field day last September. The prizes are gold and silver medals, bearing the monogram, "L. H. A. A.," 1901, and the name of the event for which it is awarded. Those who will receive first prizes are Fred Stahl, Frank O'Brien, P. H. Arantz and George Ryan. Those who will receive second prizes, silver medals, are John Tompkins, E. B. DeLaGrange, A. J. Schoenpein, A. K. Baker, George Sosenheimer and Patrick Morris.

CANADA WILL CO-OPERATE.

Chicago, Oct. 21.—Hon. Sydney Fisher, minister of agriculture of the Dominion of Canada, today notified General Manager E. Skinner, of the International Live Stock exposition, that the Canadian government would co-operate with the United States department of agriculture in waiving established quarantine regulations for the big stock exhibition to be held in Chicago during the first week in December. The Canadian officials announce the suspension of the quarantine rule on hogs entering the Dominion as applied to exhibits sent to the Pan-American exposition.

INDIANS ARE OBSTINATE.

Solway, Minn., Oct. 21.—A. L. Kaiser, of the bank of Fosston, and T. Burke, of the Solway Mercantile company, have arrived from the Redlake Indian agency with dispatches from Agent Mercer to the Indian commissioner at Washington. The Indians refuse to accept the annuity payment unless the money due from logging operations last winter is also paid at this time, as they claim it was promised them by the department. The Indians are in a sullen mood and the excitement at the agency is intense.

PRINCE OF TECK ROBBED.

Halifax, N. S., Oct. 21.—The duke and duchess of Cornwall and York left Canada at half-past 9 this morning in the presence of thousands of cheering spectators. A heavy snowstorm commenced shortly before the Ophir steamed away. Prince Alexander of Teck was the victim of a robbery yesterday, a gold watch, an heirloom which had been in the family for generations, and a purse filled with sovereigns having been taken from his cabin on the royal yacht Ophir.

FOR THE BOY.

Father's clothes cut down no longer suit the youthful master of the house. He must have an outfit quite as carefully made as that of his elders, he has styles all his own, and each season sees some change in them.

This year quite a number of new features are shown. Stripes and mixtures are seen in the new materials instead of perfectly plain colors. The stripes, however, are almost indistinguishable. They are in colors that fade imperceptibly into the hue of the fabric itself. They can hardly be noted, yet they prettily break the monotony of plain colors. It is the same in the mixtures. The general effect is that of one color but a mottled mingling of hue is seen when examined at close range that is a decided and pretty relief from a plain surface.

Collars are a trifle smaller; shoulders are padded to make the little figure look more manly. But it is still remembered he is a boy, and in many suits double seats and knees are provided to make the clothing more durable.

NOTES OF THE DAY.

The managers of four northwestern railroads are leaguing together to stimulate sugar beet cultivation. It requires $500,000 to equip a good factory.

The first chemical factory opened in this country was in Salem, Mass., in 1811. At first great objection was made to the establishment of the factory, the persons living near claiming that the fumes of the chemicals poisoned the air and made life intolerable.

SHOT IN SALOON ROW.

Evansville, Ind., Oct. 21.—In a general row, which occurred in a saloon in this city last night, Noah Fuquay, proprietor of the place, shot William Battag five times, inflicting fatal wounds. Battag, it is said, attacked Fuquay as the result of a quarrel, and the saloonkeeper retaliated by firing the fatal shots.

IS SLOWLY IMPROVING.

The condition of Congressman James M. Robinson is somewhat improved today, although no marked change for the better has occurred. Mr. Robinson passed a good night and his temperature today was 100 1-5; pulse, 84. The conditions are favorable and it is believed that Mr. Robinson is on the road to recovery.

DEATHS AND FUNERALS.

PIRSON.

Mrs. Mary Pirson, wife of J. E. Pirson, died at noon Sunday at the family residence, 4 South Wayne avenue, after a protracted illness. Mrs. Pirson was 60 years of age and her death was due to a complication of diseases.

Mrs. Pirson was a devoted member of Calvary U. B. church and was highly esteemed by all who knew her. The surviving members of the family are the husband, one son and three daughters—A. Pirson, Mrs. Allen A. Bowser, of East Creighton avenue; Mrs. S. C. Throckmorton, of West DeWald street, and Mrs. August Yergens, of St. Joe township.

Funeral services will be held from the residence Wednesday afternoon at 1:30 o'clock.

The Making of a Wooltex Garment

How the Materials Are Selected. Trained experts examine every piece of cloth that goes into **Wooltex** Garments. It must stand the strongest chemical test. Not an inch of imperfect cloth is allowed to pass into the hands of **Wooltex** workers. This insures a wearing quality superior to that found in any other make of ready-to-wear garments for women.

Where the Styles Are Originated. In Paris, Vienna, and the leading fashion centres of Europe, wherever a new and remarkable design is produced, a duplicate of it is immediately sent to the **Wooltex** designers, who adapt its best features to the needs of American wearers. **Wooltex** styles meet every demand of Fashion's decree.

Where the Garments Are Made. In one of the best equipped work places of the world hundreds of skilled workers are producing **Wooltex** garments—day in and day out—every workday in the year. Its location is central to keep in touch with the demand on one hand and the best sources of supply on the other.

How They Are Made. Every modern contrivance that will contribute to the better making of women's garments is used by **Wooltex** workers. This insures economy in production and a consequent lessening in price to the wearer. This feature in the making of **Wooltex** garments has helped to make them what they are—the most reasonably priced as well as the finest garments sold to-day.

How They Are Finished. Every detail in a **Wooltex** Garment receives the closest attention. Not a stitch is carelessly made. The hidden parts—where the greatest strain is felt and on which the durability of the garment depends—is as conscientiously cared for as the more prominent parts. The silk for the stitching, the linings and the bindings are the best that can be procured.

How They Fit. The exquisite fit that characterize the **Wooltex** Garments is secured through the modern method of making. Garments are fitted to living *natural* models, and are not shaped to an ideal to which the average woman cannot conform. The garments are made to fit the wearer—the wearer is not compelled to adapt herself to the garment.

Where They Are Sold. The leading dealers in your locality carry **Wooltex** Garments. You can easily distinguish them by the **Wooltex** tag, which is not only a mark on the garment, but also a guarantee for fit, finish and durability. If you cannot procure the new **Wooltex** Fashion Book from your local dealer write to

FOOT BALL NOTES.

Van Wert developed a yellow streak and did not show up for a game Saturday, and Auburn kindly consented to come down and assist in providing entertainment for the crowd of four hundred people at League park in the afternoon. There were three Fort Wayne boys with the Auburn team, and the visitors put up a very good game. In the first half neither side scored, the locals playing a rather dopey game, while the visitors fought for every yard, the half terminating near the center of the field. In the second half the Library hall boys came to and proceeded to do business. With a succession of line plunges and end runs Auburn was forced down the field, being penalized at her five-yard line for off-side play. The visitors made a desperate stand in the last ditch, but Evans made a plunge through center and scored a touchdown. The try for goal was unsuccessful. In the next few minutes of play Long punted and Fort Wayne held the visitors for downs. At Auburn's twenty-five-yard line Evans made a magnificent run around Auburn's right end and scored another touchdown. Long failed to kick goal, and the score was 10 to 0 in favor of Library hall. Right Half Back Evans was the star for the Fort Wayne boys, and Hopkins, Long, Menzies, Jones and Nolan also did excellent work. Evans scored both touchdowns and made frequent long gains around ends and through the line. Brown, of Auburn, and John Eggemann, of this city were the officials.

The high school team was defeated by Huntington Saturday by a score of 27 to 0. The local team had three substitutes in the game, and they had the additional handicap of being lighter than their opponents. Dunten, McCormick, Wilt and Preston carried off the honors for Fort Wayne. The return game with Huntington will be played here Saturday, Nov. 23.

Scores of the big games Saturday were as follows: Ann Arbor, 29; Northwestern, 0; Cornell, 17; Carlisle, 0; Princeton, 35; Brown, 0, Pennsylvania, 6; Bucknell, 0; Illinois, 24; Chicago, 0; Yale, 22; Penn State, 0; Annapolis, 18, Lehigh, 0, Harvard, 6; West Point, 0.

Following are the scores of some of the games in Indiana Saturday: Wabash, 23; Rose Polytechnic, 16; Butler, 30; Earlham, 0.; Indianapolis, Manual Training, 6; Culver, 0; Purdue, 19; DePauw, 0; Indiana, 76; Franklin, 0; Vincennes, 10; Orchard City, 6.

Herbert A. Davidson, of Worcester, Mass., full back on the University of Pennsylvania, has been elected captain of the team.

Kendallville has challenged the Library hall team for a game next Sunday at Kendallville.

A BAD MIX-UP.

While responding to an alarm of fire from the Davis Medical institute last evening a serious collision occurred at the corner of Court of Berry streets between the hook and ladder truck and the fire engine from No. 1 engine house. The horse on the right hand side of the truck was thrown against the engine, and the harness becoming entangled, held him between the front and rear wheels. A gash half a yard in length and about five inches in width was cut in the horse's hip, and the animal will probably have to be shot. One of the engine horses was thrown from its feet by the force of the collision, and the front wheels of the engine passed over it, leaving it wedged beneath near the fire box. The engine was jacked up as soon as possible and the horse was released, none the worse for the accident. The driver, Frank Hensel, was pulled from the box, and sustained a sprained ankle. The fire was of little consequence and originated in a small heap of waste paper in the cellar of the Baltes building.

MEMPHIS RACES BEGIN.

Memphis, Tenn., Oct. 21.—The autumn meeting of the Memphis Trotting association will begin at Billings park this afternoon and continue throughout the week. The entries lists have been well filled and high class sport is promised. The feature of today's card will be the attempt of Little Boy, owned by C. J. K. Billings, of Chicago, to lower his pacing record of 2:02, hitched to a wagon recently made in New York. A special train from Lexington bringing 250 horses arrived yesterday at the park. Among the arrivals are some of the foremost trotters and pacers in the country.

SEASONABLE HINTS.

GUARD YOUR HEALTH IN FALL AND EARLY WINTER.

A change from warm to cold is always attended with more danger than from a cold to a warm temperature, hence the greater mortality from lung and throat diseases at this season of the year as compared with spring.

The best protection against colds is not so much in extra clothing as in good digestion.

If the digestion and circulation are good, colds will be unknown.

Poor digestion causes poor circulation of the blood and when in this condition severe colds are contracted on the slightest provocation.

People who make a regular practice of taking Stuart's Dyspepsia Tablets after meals are free from colds, simply because their digestion is perfect, the heart strong and regular and the whole system fortified against disease.

It requires little argument to convince anyone that the best safeguard against colds, pneumonia and changes of temperature is a good stomach.

Stuart's Dyspepsia Tablets taken after meals are dissolved and mingling with the food cause it to be promptly digested and assimilated; they do this because they contain nothing but harmless digestive elements, which digest meats, eggs and other food even when the stomach itself is weak and flaccid.

Stuart's Dyspepsia Tablets make people well and keep them well, and the best habit you can acquire is to keep daily use of them at meals to make the digestive organs strong and vigorous.

If the United States purposes to include in its general plans of pacification of the Philippines the island of Samar more regiments are needed there. It is very evident that else than business-like fighting will not bring the natives to understand what authority must be respected. Samar has already cost us heavily in men and other treacherous plots are being discovered.

The triumph of M. Santos-Dumont in circling with his airship around the Eiffel tower and returning to his starting-point within a given time does not mean that aerial navigation is soon to become as common as autolocomotion. It doubtless will be a long time before we can navigate the air in any practical sense. But the Brazilian aeronaut has proved that aerial navigation is possible. He has compelled his machine to obey him in accomplishment of the thing he set out to do. That is a great deal.

Another electric railway project is headed toward this city and, of course, we want it. It is but one of several that will come in here within a short time if they can get in. But this city must get into better shape to welcome these enterprises. They must be met with promise of something better than a fight if it is expected they will put Fort Wayne on their maps. Some plan that will solve the whole general interurban question must be adopted and prosecuted. While Fort Wayne will be good for the interurbans, it should not be forgotten that the interurbans will be just as good a thing for Fort Wayne. The matter must be dealt with in some spirit of reciprocity.

IS ANXIOUS TO PROSECUTE

GAS INSPECTOR LEACH REPLIES TO STRICTURES.

Says He Is Making Every Effort Possible to Prevent Waste By Big Corporations.

Kokomo, Ind., Oct. 21.—A pamphlet accusing State Natural Gas Supervisor J. C. Leach of numerous derelictions is being circulated in his own home town. The pamphlet accuses Mr. Leach of prosecuting farmers for small waste of gas and permitting big corporations to disregard the waste law. The main charge is that Supervisor Leach permits the Indiana Natural Gas and Oil company to use pumps in piping gas to Chicago. In an authorized interview in refutation of the charges, Professor Leach said:

"This pamphlet has been published presumably by the Chicago, Indianapolis and Evansville railway, which is having a fight with the gas company that is piping the fluid to Chicago. The pamphlet says that evidence has been presented to me that the company is using pumps to increase the flow of gas. That is true. An affidavit was given me by officials of the road that compressor pumps were being used by the Indiana Gas company (Chicago Pipe Line company). I wrote the attorney general asking for an opinion. His first answer was that it was not unlawful to use pumps. I consequently could not prosecute on that affidavit. In a later opinion the attorney general stated the use of pumps was unlawful. On receiving this opinion I went at once to Prosecuting Attorney Amsden, of Grant county, saying I was ready to proceed with the prosecution on the affidavit. Mr. Amsden, in a long opinion, stated that it was no violation to use the pumps and that he could make no case. He declined to prosecute or file any affidavits. I wrote the attorney general then, giving him a list of the eighty pumping stations in Indiana and a complete statement of what action I had taken. I stand ready to bring any prosecutions the attorney general may advise."

WASTE OF NATURAL GAS.

Hartford City, Ind., Oct. 21.—Much natural gas is being wasted in this county. Last Friday night a party of manufacturers and newspaper men made a tour of the oil field bordering on the city limits. The result of their investigation was even more astonishing than was expected. Nearly fifty flambeau lights illuminated that entire part of the field while old pieces of sheet iron were laid on the ground under which the gas from two-inch pipe was allowed to escape and burned. The boilers used to pump the wells by the "walking beam" method resembled the stacks of rolling mills. Long red flames burned five and six feet out of the stacks and the steam pressure was 120 pounds, while but twenty pounds are required. Besides this the casing heads at the wells were open and unburnt gas is allowed to pass off into the air. These great torches are still burning today and have been ever since the oil field was opened. As a result of this waste the gas pressure in this vicinity, which only last year showed 140-pounds pressure, is now less than fifty pounds in many of the wells.

CELEBRATES ANNIVERSARY.

The tenth anniversary of the dedication of Zion's Lutheran church at the corner of Hanna street and Creighton avenue, was celebrated yesterday, and the big edifice was filled to the doors at the three services. Rev. Luehr, pastor of Zion's church, officiated at the morning and afternoon services, and Rev. Philip Wembsganss, of Emmaus church, officiated in the evening, at which time a union service of all the Lutheran churches in the city was held. Zion's church is a branch of St. Paul's congregation and its first pastor was Rev. Juengel, who served until about two years ago, when he retired from the ministry. The present pastor is Rev. Luehr.

MRS. M'KINLEY IMPROVING.

Canton, Ohio, Oct. 21.—Surgeon General Sternberg, of Washington, left last night for Columbus, where he goes on official business. He was a guest at the McKinley home yesterday. It is given out that he stopped merely as an old friend of the McKinleys to make a social call on Mrs. McKinley. She is said to be "doing nicely." There was no change in her condition that called for the presence of Surgeon General Sternberg in consultation.

WANT A CHURCH AT FAIR.

St. Louis, Oct. 21—All the churches representing the St. Louis Evangelcal alliance, Archbishop Kane, of the Catholic arch-diocese, and practically all of the religious societies and interests of the city have presented a petition to the world's fair management for the erection in the world's fair grounds of a suitable building for the holding of religious meetings, conventions, etc., and for the display of such exhibits as the various bodies may desire to make.

PUSHING LINE WESTWARD.

(Huntington Democrat.)

S. L. Nelson, vice president and general manager of the Fort Wayne and Southwestern Traction company, was in the city Saturday, en route to Kansas City. After making a tour of inspection of the company's properties, he stated that twenty-five or thirty teams will be put to work on the line west of the city next week. Thus far the company has not purchasd the towpath of the Wabash and Erie canal, owned by A. N. Dukes, of Peru, but an offer has been made. The sum offered is not stated, but it is understood it is the amount which will be required to grade another right-of-way. When asked in regard to his company's plans for entering Fort Wayne, Mr. Nelson said that nothing definite has as yet been decided upon. Of course they hope to secure right-of-way on Harrison street. In case this is not secured other plans must be considered. Mr. Nelson was asked whether there is any chance for Huntington to secure the main offices of the company. He said that that very matter was under consideration as since power house, shops and barns are here Huntington would be the logical center of all business interests connected with the line.

OUSTED FROM CHURCH.

Boston, Oct. 21.—Because he became a citizen of the United States and swore to uphold the constitution of his adopted country, James Jackson, of Cambridge, has been suspended from membership in the Second Reformed Presbyterian church, of Boston, by Rev. J. M. Foster, pastor. The New York Presbytery of the church at its fall meeting in Boston last Tuesday confirmed the sentence, refusing to sanction the action of Rev. S. G. Shaw, pastor of the First Reformed Presbyterian church, of Cambridge, in admitting Jackson to membership in his congregation after Jackson's suspension. Jackson is a native of Scotland and came to this country in 1890. He joined Foster's flock and was elected an elder. All elders are obliged to undergo an examination as to fitness for responsibilities conferred. While he was being examined the fact leaked out that Jackson had become a citizen. He explained that his wife had made a visit home in 1900 and that he had become a citizen to avoid question as to her right to land here on her return, but to no purpose. Rev. Foster said: "It is true that we look upon the constitution of the United States as an immoral document and an insult to the Almighty. We recognize Jesus Christ as the king of all nations. The constitution does not even mention His name and makes no reference to Him or to the Bible, which is His law. We refuse to accept the constitution thus defective and cannot swear allegiance to it."

In 1891 the suspension of certain members for swearing to uphold the constitution resulted in the withdrawal of over 2,000 members from the church.

TRAGEDY AT A DANCE.

Marion, Ind., Oct. 21.—Harley Marshall's home, four and one-half miles northeast of Upland, this county, was the scene Saturday night about 9:30 o'clock of a tragedy. Marshall, who expecxted to have a sale this week, and move away, was giving a dance as a farewell to his friends and neighbors. Arzie Deeren, an enemy of Marshall, appeared at the dance, and the latter took offense at his presence there. A heated controversy arose, and Deeren shot Marshall. Three shots were fired at him. Each took effect in Marshall, one in each arm and the other in his chest near the heart. Lee Larkins, a bystander, was struck in the chest by the bullet, which grazed Marshall's arm. Both Larkins and Marshall will die. Sheriff Bradford and deputies were summoned from Marion, and located Deeren at the home of his father, one mile northeast of Upland. Deeren was brought to jail here. Marshall and his wife recently separated and it is rumored the enmity between Marshall and Deeren was due to that episode. Marshall is about 40 years old, Larkins 25 and Deeren 21.

MARRIES FOURTEENTH WIFE

Barbourville, Ky., Oct 21.—James Meridy has proved that No. 13 is no more unlucky than any other number. He was divorced from his thirteenth wife October 15 and married his fourteenth an hour later. Meridy is 40 years old and in appearance resembles Buffalo Bill. Four of his wives are dead and nine have been divorced.

SHAMROCKS WIN AT TIFFIN, O.

At Tiffin, O., yesterday afternoon, the Shamrocks defeated the crack Tiffin team by a score of 9 to 0. Tiffin has been beaten but four times this season—twice by the Shamrocks, once by the Springfield Reds, and once by the Dayton league team. Robbins and Tieman were in the points and the Buffalo battery put up their usual fine game. Robbins was at his best, and he was given fast support. Robbins, McDarby and Romary led the stick work. Romary and Cherry made sensational catches of foul balls in the crowd. Boseker's one-handed stop of a drive over second was one of the features. In the third inning Tiffin had men on second third, and no one gone, but could not score. With the two on base a Buckeye hit a fly to Hicks in center, and he made a great throw to the plate, cutting off the runner trying to score from third. In the ninth Tiffin opened up with a two-bagger. In this inning Jack Smith cut off Tiffin's chances of scoring by fast fielding to the plate of a bad bound over Robbins' head. Tieman, who has been putting the timber to the ball, made two terrific drives to right, but both were captured. Besides pitching great ball Robbins secured three hits—a single and two two-baggers. It was an ideal Indian summer day and the game was witnessed by a large crowd. The score.

STONED A STREET CAR.

Last evening a street car passing the corner of Jefferson and Lafayette streets was attacked by some boys who stoned the car quite vigorously. Luckily no one was hurt, although several windows of the car were broken and dents where the stones struck are plainly visible on the woodwork. The electric lights were not lit at the time and neither the passengers nor the car crew could distinguish any of the miscreants, who ran away immediately as they discharged their volley of missiles. The police have the matter in hand and if the perpetrators of the outrage can be discovered they will be severely dealt with.

SEES NEW CURE FOR CANCER

BLOOD OF MALARIAL PATIENTS AN ANTIDOTE.

Professor Loeffler Suggests the Inoculation of Cancerous Subjects as Rational.

Berlin, Oct. 21.—The injection of malarial blood as a scientific cure for cancer is proposed by Dr. Frederick Loffler, professor of hygiene in the ancient Royal University of Griefswald, Prussia. Professor Loffler is the German pathologist who discovered the bacillus of diphtheria. He finds that amid tropical conditions most conductive to the contraction of malaria cancer is of extremely rare occurrence, and has been led to the conclusion that when malarial poison is administered as a theapeutic it acts as a safe antidote to all forms of cancerous disese.

Whate he calls "the remarkable infrequency" of cancer among the negroes if the United States and other African populations is cited as one of the chief arguments in favor of the new theory. Speaking to the Record-Herald correspondent Professor Loffler said:

"Realizing that malaria is not only capable of infecting the human system, but also of occasionally counteracting the ravages of other diseases, the idea occurred to me of attacking cancer with the aid of a malarial person. It has been established that malaria, when artificially produced by hypodermic or internal injections of the blood of malarial patients, can be arrested by the prompt administration of quinine. This accordingly suggests the innoculation of cancerous persons either by means of the malarial mosquito itself or with the blood of patients afflicted with malarial infection.

"Previous attempts to cure cancer through vaccination with other infectious substances have not only met with poor success, but have been accomplished with great danger because of inability to control the antidote. Among the most notable of these attempts is the one based on the theory that tubercle bacilli and the bacillus of cancer excluded each other. In tropical lands, where malaria flourishes, cancer is seldom known. In Borneo, after ten years of close observation, not a single case has been discovered.

"Let me impress on my fellow practitioners everywhere that my proposal has not advanced beyond the experimental stage. I desire their co-operation in working it out. Of especial value will be the assistance of those who come in contact with diversified forms of cancer and of those who have their practice in the tropics."

BRICK BY EXPRESS.

Terre Haute, Ind., Oct. 21.—Probably the largest and most peculiar consignment for long distance by express on record was that of two carloads of brick which passed through here over the Big Four Saturday from St. Louis to Augusta, Maine. The express charges were $1,925. The aggregate weight of the two loads was 55,000. A contractor at Augusta is doing some work for Governor Hill, of that state, and there is a time limit on this contract. A certain kind of brick is specified in the contract, and St. Louis was the only place where he could get the number needed at once. He could not afford to wait for brick to come by freight, and ordered it sent by the Adams Express company.

JOHN HUSTON KILLS HIMSELF.

Connersville, Ind., Oct. 21.—John Huston, son of the late William Huston, and a member of one of the wealthiest and one of the most prominent families in this section of the state, died at his mother's home, north of this city, last night, from a self-inflicted bullet wound. Mr. Huston, who was about 30 years old, had been melancholy for some time over his inability to conquer his thirst for liquor, and Saturday night at 8 o'clock sent a bullet through his head. He lingered for twenty-four hours and died without regaining consciousness. He was a relative of J. N. Huston, who was United States treasurer under President Harrison.

EDITOR M'HUGH RELEASED.

Dublin, Oct. 21.—Patrick A. McHugh, member of parliament for the north division of Leitrim, who was sentenced April 23 to six months imprisonment as a first class misdeamant, for publishing in his paper, the Slogo Champion, seditious libels calculated to interfere with the admission of justice, was released from Kilmainham jail today. Mr. McHugh was accorded an enthusiastic reception by a large crowd of people who repeatedly cheered him, and eagerly crushed forward to shake his hands. The lord mayor of Dublin, Sir Thomas D. Pile, a numerous deputation from Slogo and John O'Dowd, member from Slogo, and John O'Donnell, member from South Mayo, were among those who welcomed him to liberty. Mr. McHugh drove in the lord mayor's carriage, followed by a line procession of carriages, to a hotel, where a luncheon was given in his honor. Mr. McHugh will sail for New York with John Redmond and John O'Donnell on the steamer Majestic, which leaves Queenstown Thursday.

CANDIDATES FOR THE PURPLE.

London, Oct. 21.—Candidates for the "purple" at the consistory which the pope usually holds about Christmas time, according to the Rome correspondent of the Pall Mall Gazette, are arising everywhere, their numbers seeming to increase in proportion to the distance from Rome. The United States, for instance, besides the candidates of long standing, Archbishops Corrigan and Ireland, who represent two opposite tendencies in the American Roman Catholic church—has on this occasion two additional aspirants for the red hat. There are only four vacancies in the college of cardinals, and the American prelates are thought to have few chances of selection, as the pope is credited with a determination not to have more than one cardinal in the United States, fearing that the friction and antagonism will be difficult to harmonize and might be fatal to Catholicism in America.

CROWN PRINCE COMING.

New York, Oct. 21.—Acording to the World there is possibility that Crown Prince Wilhelm of Germany will visit the United States, and particularly New Jersey, about April and May of next year. Emperor William is now having constructed at a shipyard in New Jersey a new yacht, ordered through the German minister at Washington. He intends ultimately to give the yacht to the crown prince, and on that account is desirous of having the son present when the trial trip is made. He also wants the prince to study American methods in ship building. The yacht will be ready in April. The crown prince, if he comes, will be accompanied by several naval officers.

THE PRESIDENT'S TRIP.

Washington, Oct. 21.—President Roosevelt, accompanied by Secretary Cortelyou, Assistant Secretary Barnes and one or two members of the white house staff, will leave this afternoon via the Pennsylvania railroad for Farmington, Conn. The party will travel in a private car attached to one of the regular trains. The president will spend a brief time at Farmington with his ster, Mrs. Cowles, before going to New Haven, where he is to receive the degree of LLD. from Yale. Inasmuch as the trip is a private one, no details concerning it are made public.

PLAGUE RAVAGES FOO CHOW.

London, Oct. 21.—The Church Missionary society has received mail reports showing that the bubonic plague is ravaging Foo Chow and vicinity. Fifteen hundred cases of the disease are reported daily, and for a couple of weeks upwards of a thousand coffins have been carried out of the city gates each day.

LATE MASTER OF ROLLS DEAD.

London, Oct. 21.—Sir Archibald Levin Smith, who recently resigned the post of master of rolls, on account of ill-health, died last night in Merayshire, Scotland. He had rowed thrice with Cambridge against Oxford. He was born in 1836.

TO BUILD A CHURCH.

St. Petersburg, Oct. 21.—Father Kochuroff, a priest of the orthodox church, residing in Chicago, has been most successful in collecting funds for the erection of a church building in that city. He will start for home shortly with a draft for $30,000.

ENDS LIFE OF ILICIT LOVE

MRS. CHARLOTTE NICHOL DIES IN CHICAGO HOTEL.

Dr. Orville Burnett, Her Lover, Also Tries to Pass Out of the World With Her.

Chicago, Oct. 21.—While grieving over the dual life she was leading with Dr. Orville Burnett, a prominent Chicago dentist, Mrs. Charlotte Nichol, wife of W. L. Nichol, jr., commercial agent of the Nashville, Chattanooga and St. Louis railroad, committed suicide yesterday in the Marlborough hotel. Burnett also tried to end his life at the same time, but was unsuccessful. The two were found in their rooms, both stretched across the bed, the woman dead, with Burnett with his neck pierced with a hat pin, a bottle of morphine clutched in his hand and the gas turned on from every one of the six jets in the suite. Dr. Burnett is still alive and has been arrested. In one of the rooms was found a note written by the woman, which told of her reason for the act. She said:

"To whom it may concern: I did it because I loved him better than anything on earth and he loved me, and we could not be separated. Goodbye. Charlotte."

The note, supplemented with a statement made by Dr. Burnett, tells of the tragedy enacted by the two lovers. According to the dentist's story he met Mrs. Nichol while yet a young girl in Nashville, Tenn., and fell in love with her. Burnett moved to Chicago and married several years afterward. "Our love was still strong for each other," said Burnett, "and she moved to Chicago to be near me. We were together nearly every day. There seemed, however, to be a constant remorse on her part on account of the dual life she was leading. Saturday we went down town together and after having several drinks she proposed suicide to me and we went to the Marlborough hotel and she produced a bottle of morphine she had hidden in her dress. She again asked me to die with her and I consented. Then she swallowed nearly all the contents of the bottle and handed it to me. I drank what was left, but believing that I had not taken enough to prove fatal I tried to end my life by sticking the hat pin into my neck. I saw this also was going to be a failure, so a turned on all the gas and laid down to die." Burnett stated that his wife knew nothing of his attachment for Mrs. Nichol.

A policeman who was sent to the Nichol home at 6518 Minerva avenue last night, to notify Mr. Nichol of the tragedy, found no one there but the two little children of the dead woman, one a boy of 8 and the other a little girl of 4 years. They told the policeman that their father was out looking for their mother, who had been missing all Saturday night and yesterday.

Dr. Orville S. Burnett was born at Hastings, Neb., about twenty-eight years ago. He was married seven years ago to Grace Anderson, also of Hastings. She had been his playmate and schoolmate from childhood. Immediately afterward the family moved to Denver, Orville, the son, also going. His father was a wealthy stock man, and the young man lived in ease for years. Finally his wife urged him to take up a profession and he decided to become a dentist. About three years ago he came to Chicago to study.

Dr. Burnett was held to the grand jury by a coroner's jury today. It was charged that he could have kept her from her act had he tried, and that his conduct should form the basis of an investigation by the grand jury. A physician at the inquest testified that the morphine Burnett had taken was not sufficient to hurt him and that the wound in his neck was not visible to the naked eye.

MADE SPLENDID RECORDS.

Five members of the mailing department of the Fort Wayne postoffice—Messrs. T. W. Blair, George B. Humphreys, Jesse L. Braden, Elson Brosius and W. H. Smith—took the examination prescribed by the department last Thursday, conducted by Chief Clerk W. L. Poe. Mr. Poe has made his report to Superintendent O. T. Holloway, who has written Postmaster Page, paying a very high compliment to the force in the mailing department. A total of 667 pieces of mail were thrown by each of the gentlemen, and the grades of the applicants ranged from 98.25 to 100 per cent. Mr. Holloway states that the examinations show a splendid record and a thorough knowledge of the section in question, and that the showing is one of the best ever made in any office.

AGED SOLDIER WINS A BRIDE.

Kokomo, Ind., Oct. 10.—Despite vigorous protests of relatives on both sides, Captain Garrigus, aged seventy, Indiana commander of the G. A. R., has won his suit for the hand and heart of Miss Marie Thomas, aged seventeen, and they will be married next Wednesday at the home of the bride's guardian in Henry county. The courtship began six months ago when Miss Thomas was an inmate of the home of her uncle, Henry Edwards, near this city, who raised her from infancy. Adjoining the Edwards home is a farm owned by Captain Garrigus, and clandestine meetings of the pair resulted in betrothal. Letters from the aged lover to Miss Thomas were found by Mr. Edwards and a stormy scene followed when he and Garrigus met. Miss Thomas left the Edwards home and since has lived with her guardian. She will be eighteen on her wedding day.

FRENCH IDEAS OF NEW YORK.

Le Matin, a Paris paper of considerable circulation, recently printed an article on New York city and the wonderful things to be seen there. Some of the statements are a trifle tall, as will be seen from the following extracts:

"The Americans are decidedly insatiable. While we are still using steam engines for our railways they have long ago tasted of the benefits of electrical traction, and now they are commencing to abandon electricity for compressed air.

"The New York line of Manhattan uses now, to the exclusion of all other modes, compressed air engines, and it appears that the results are so marvelous that the transatlantic papers proclaim steam as a thing of the past and electricity old-fashioned.

"The air is compressed in what the American calls a 'power station,' something like a gas factory. It is compressed until it attains an expansive power of 1,500 to 2,000 kilos per square centimeter that it occupies. It is then transferred on board the locomotive, where it is stored in a large steel tank, which replaces the boiler. There it is furthermore compressed by the use of reduction valves, and, reaching a certain pressure, it gets heated. It is then ready for use.

"In brief, to listen to the Americans, it is the locomotive long dreamed of."

NESTS OF HAIRPINS.

A curious preference of certain pigeons for the use of metallic objects in building their nests is noted by M. Maurice Dusolier in the Revue Scientifique. He asserts that several pairs of these birds that he has observed in Paris have raised their young in nests made entirely of hairpins. These articles they collected in the paths of the Luxembourg. The young pigeons grew up normally as they would in a softer nest. M. Dusolier believes that there is a useful suggestion in this for pigeon fanciers, who are often overanxious, he thinks, to see that their charges have soft material for their nests.

GIRL BURNED TO A CRISP

BROTHER'S ATTEMPT AT RESCUE FUTILE.

Tragedy at Lake Wawasee—Little Ones Locked in Home By Mother, Who Attended a Dance.

Goshen, Ind., Oct. 21.—Helth within a burning house by bolted doors, locked by a thoughtless mother who left her children to attend a dance, the six-year-old daughter of Mrs. Joseph Gordy perished in the flames which destroyed the Gordy home at Lake Wawasee Saturday night, despite the efforts om her only companion, a brother three years her senior, to save the little one's life. Although badly burned about the face and hands and almost suffocated by the smoke, the lad finally managed to make his escape by a window. It is believed he will recover. The body of the little girl was burned to a crisp and the blackened and distorted remains could not be recognized even by the heart-broken mother who returned before the fire was extinguished.

Mrs. Gordy, who has not lived with her husband for several months, started for a country dance early in the evening, and fearing burglars, securely locked all the doors of the home. The fire evidently did not start until several hours later and the origin is still unknown.

According to the story told by the little Gordy lad, his sister and he fell asleep soon after the departure of their mother. Several hours later he was awakened by a bright light in the sleeping room and leaped from the bed to discover the house in flames.

The first thought of the little fellow was for his sister. He rushed to her as she lay asleep and dragged her from the bed. He was unable to arouse her and the flames closed in upon the children. Gasping and struggling, he succeeded in pulling the little girl to a window, but was compelled to release his hold in order to force up the sash.

The task was difficult and by the time the window was raised the room was filled with flames and smoke. Almost unconscious the lad managed to crawl from the window to the ground, but was unable to lift his sister from the floor.

When assistance arrived the entire house was in flames and soon burned to the ground. Mrs. Gordy is prostrated by the tragedy and her condition is critical.

CALLS KITCHENER HANGMAN.

New York, Oct. 21.—A London special to the Times says:

Referring to the fresh outbreak of Anglophobia in Vienna, a correspondent in the Australian capital quotes the especially influential Catholic organ, the Vaterland, which publishes an article headed, "Lord Kitchener as a Hangman." It says the commander-in-chief of the British forces in South Africa, in despair of being able to conquer the Boers by honest war, has for a long time had recourse to brutality. His bloodthirstiness was formerly restrained by the British government, but it now appears that a free hand has been given to him. The Vaterland goes on to say that the announcement that Commandant General Botha will meet violence by reprisals will convince all that the Boers are not intimidated, but only exasperated, by Lord Kitchener's inhumanity. The sanguinary seed sown by the British commander will produce a harvest of blood, and none can blame the Boer leaders if they have recourse to a terrible retribution.

SLAYS GIRL; KILLS SELF.

San Francisco, Oct. 21.—Mabel Franklyn Mayer, aged thirteen, was killed early today at the home of her parents, by John Stano, aged twenty-two years, who then placed the revolver to his own head and put an end to his life. Stano, who is a native of Smyrna, Turkey, a waiter by occupation, was formerly employed on the United States transport Meade. He was infatuated with the Mayer girl.

PEER TO WED A BEAUTY.

London, Oct. 21.—The announcement of the engagement of the duke of Hamilton and Brandon to Nina Poore, one of England's beauties, has caused widespread interest. The duke of Hamilton and Brandon is premier peer of Scotland and hereditary keeper of Holyhood palace. A few years ago he was a poor lieutenant in the navy, but succeeded to the titles and the estates in 1895.

COLOMBIAN REBELS LOSE.

Kingston, Jamaica, Oct. 21.—Letters received here from Panama say the Colombian rebels lost heavily in a battle near there last Tuesday. The rebels are concentrating in a camp in the neighborhood and both sides are preparing for a clash which, it is expected, will large determine the fate of the revolution.

THE MARKETS.

Chicago, Oct. 21.—Wheat opened steady today with December ⅛@¼c to ⅜c higher at 71⅛c to 71¼@71⅜c on improved cables. Trade was not active, yet there was an unsettled feeling at the start and on the few deals made early prices fluctuated rapidly. December sagged with a small decline in cables to 70¾@70⅞c, but on consideration of a considerable increase in world's shipments it sold back to 71⅛c. The local demand was only moderate and commission houses made few sales. Local receipts were 156 cars, none of contract grade; Minneapolis and Duluth reported 1,031 cars, making a total for the three points of 1,187 cars, against 1,000 last week and 1,270 a year ago. The amount on passage showed a decrease of 1,472,000 bushels. World's shipments were 8,732,000 bushels against 7,708,000 bushels last week and 6,981,000 bushels a year ago.

A sharp decline in cereals and a general liquidation by longs brought December wheat to a weak close, ⅜@½c lower at 70½c.

December corn opened dull, unchanged to a shade lower, at 56¼@56⅛@56¼c on steady cables. Commission houses were doing practically nothing and almost the only dealing was the changing of December for May. On small covering for shorts December sold to 56⅜c, but sagged away again to 56c at the end of the first hour. Receipts were 254 cars.

December corn followed wheat in the decline and closed weak, ¾@⅞c depressed, at 55⅜@55½c.

December oats were profoundly dull, there being no quotation during the first hour. May had a little scalping trade and opened unchanged at 37¼c and fluctuated within ¼c. Receipts were 195 cars.

Dullness was the only feature in the provisions pit at the opening. January pork started 2½c up at $15.15 on a steady hog market and sold to $15.22; January lard unchanged to 2½c higher at $9.02½ to $9.05, and January ribs a shade higher at $7.85 and advanced 2½c.

Hogs—Receipts, 105 cars; market slow, 10c lower; best heavy, $6.55@6.65; mixed and mediums, $6.35@6.50; pigs, $5.90@6.00; grassers and good weight Michigans, $6.00@6.25; roughs, $5.65@5.85; stags, $4.75@5.00.

Sheep and Lambs—Receipts, 93 cars; market dull; lambs, 10@15c lower; tops, $4.80@5.00; culls to good, $3.00@4.75; feeding lambs, $3.75@4.25; sheep, mixed, $1.50@3.40; wethers and yearlings, $3.50@3.75; heavy ewes, $3.40@3.50.

THE DAY ON WALL STREET.

New York, Oct. 21.—Dealings were fairly well distributed at the opening and some good sized blocks changed hands, but the level of prices was almost the same as at Saturday's close. Very few stocks changed more than ⅛.

Union Pacific, Southern Pacific and People's Gas were strong features, the latter rising 1½. Amalgamated Copper declined 1⅜ and Sugar a point. The western stocks were lower, but the Southwesterns gained.

Sugar rallied again to above Saturday's.

These diverse movements confused the traders and business became dull pending a definite tendency.

The selling pressure decreased gradually and an upturn was aided by a rise from the lowest of 2¼ in Northern Pacific preferred. Sugar rose a point. Pullman jumped 5 on one transaction. International Paper preferred lost 2, the common 1, North American 2 and General Electric and Lackawanna a point. With a reaction of 1½ in Northern Pacific preferred prices yielded again on lethargetic trading.

There were intervals of several minutes at a time when no sale was made on the exchange. Amalgamated Copper extended its decline to below 90. People's Gas and Minneapolis and St. Louis reacted about a point. New Jersey Central and International Power each rose 1 and Northwestern preferred 2. The general list was inert.

Free offerings of the general market were inspired by the steady liquidation of Amalgamated Copper, which sold nearly 3 points below last week's close. The Pacifics, Tractions and St. Paul bore the brunt of the other selling, which lowered some of them a point from their forenoon highest.

There was some active selling of Missouri Pacific, which carried it down an extreme 1¾. Minneapolis, St. Paul and Sault Ste. Marie preferred lost 2½, New York, Chicago and St. Louis 1½, National Lead ⅞ and the preferred 1⅛.

Prices generally were carried below Saturday's level. Great Northern preferred advanced 1⅝ and Northwestern 1⅝ in the late dealings.

Bonds were firm.

The closing was heavy.

NEWS OF CHURCHES

The regular weekly meeting of the Christian culture class will be held this evening at 8 o'clock in the First Baptist church, Rev. J. N. Field presiding. Rev. Field will make an address on the subject, "The Church Achieving Its Independence," and in addition there will be three five-minute addresses by members of the class. Miss Anna Philley will tell of the Twelve Apostles, Mrs. Heaton will speak of the three annual feasts of the Jews, and Mr. Harper will sum up the great facts in the first and second chapters of Acts. Rev. Field's theme will be from the third and fourth chapters of Acts, and will deal with the miracles performed after Christ's ascension, the arrest of the Apostles and the beginning of the persecution of Christianity.

Mrs. Fickes' class of girls in Westminster Presbyterian church will an oyster supper in the church parlors next Friday evening.

The joint council of the Third Presbyterian church will hold an important business meeting this evening at the residence of the pastor, Rev. J. A. P. McGaw.

Services preparatory to communion next Sunday will be held Wednesday evening in Westminster Presbyterian church.

The women's Bible meeting of Wayne Street M. E. church will be held tomorrow afternoon in the Sunday school room of the church. Mrs. Lem R. Hartman will be leader.

The Presbyterian ministers of the city will attend the postponed meeting of the Presbytery at Kendallville Thursday.

A number of the ministers who will be in attendance at the conference of the Evangelical church at Christ's church this week will occupy city pulpits next Sunday.

LITTLE SEAL WAS CHASED.

A few years ago some fisherman were following their vocation off a harbor on the Maine coast when they observed a commotion on the surface, and soon made out a seal leaping from the water as if followed by some enemy.

It came near the boat, swimming around it several times, and then, making a leap, the men saw that it was being chased by a large fish.

One of the fishermen dropped his line, and, stepping into the bow, leaned over and held out his hands. To his amazement the seal immediately dashed toward him, and with his help scrambled out of the water into the boat, just in time to escape the sharp weapon of a swordfish that darted by, its big eyes staring, probably in wonder at the method of escape, to its fishy intelligence being evidently a case of out of the frying pan into the fire.

But the little zeal apparently knew better, and it need not be said that its confidence was not misplaced, as the men were so pleased with its action in coming to them they kept it as a pet, and the seal became a familiar object about the shore.

QUEER NEIGHBORS IN A TREE.

John Widgeon, the field collector of the Maryland Academy of Science, say that birds and reptiles sometimes live in close proximity to each other. Several years ago while exploring Kent Island I ventured up a forty-foot hickory tree to inspect a large fishhawk's nest. When almost to the nest I was surprised to see an enormous black snake wrapped around the heavy sticks at the bottom of the bulky nest. The snake, although at such an unusual distance from the ground, did not lose its presence of mind, but dropped gracefully from limb to limb until it reached the ground. Continuing to the nest, I found a large family of field mice. Above this was a nest full of little sparrows, and upon the top of the hawk's nest there were three young hawks just hatching.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

GETS BETTER JOB

GEORGE DEHNE ADVANCED IN RAILWAY SERVICE.

CONDUCTOR MEYERS DEAD

SUMMONS CAME SUDDENLY AND UNEXPECTED.

A CHANGE OF OPERATORS

I. L. BOLT SUCCEEDS HARRY TAYLOR AT THE KEYS.

George C. Dehne, a Fort Wayne boy, is rapidly rising in the employ of the Chicago and Alton road. Saturday he was notified oh his appointment to the responsible office of traveling secretary to the general superintendent of the road. Few men of the age of Mr. Dehne—twenty-two—are entrusted with the duties of so responsible a position and his appointment is quite a compliment to him. George Dehne is the son of Ernest J. Dehne, forman of the Pittsburg pattern shop, and he was reared and educated in this city. After a course in the business college, he took a position as stenographer with Master Car Builder J. A. Graham, of the Pittsburg, and later served in that capacity in Road Foreman C. R. Colmey's and Chief Car Inspector W. W. Todd's offices and went from the latter to the shop clerk's office, under J. H. Hobrock. He went to Chicago to work for the Alton less than a year ago and, as stated, his rise in the employ of that company has been rapid.

TRAIN LOAD OF BULLION.

Four Union Pacific cars, loaded with bullion for the Philadelphia mints, passed through the city over the Pennsylvania at 9 o'clock this morning, running as a special and on fast schedule.

CONDUCTOR DIES SUDDENLY.

Nickel Plate employes were shocked last night upon receipt of news of the death of J. R. Meyers, of Bellevue, one of the oldest and best known conductors in the employe of the Nickel Plate. Mr. Meyers' death was most sudden and unexpected. He left this city early yesterday morning with his train, in his usual health, so far as any of the train crew were able to tell. The deceased never resided in this city, but his duties brought him here two or three times each week and he was known to all the Nickel Plate men and to many of the employes of the other roads. He was a most excellent man and very popular with his acquaintances.

A BIG LIST OF PATIENTS.

Dr. E. F. Wagner, medical examiner of the Pennsylvania Voluntary Relief association, is a very busy man nowadays. The company is hiring a good many men, all of whom have to be examined at Dr. Wagner's office, and these examinations consume two or three hours each morning. In addition to these duties the doctor is expected to occasionally call upon every sick man who is a member of the association. This is, in itself, quite a task at present, because of the many names on the sick list. Today there were eighty-five sick, twelve men who had exceeded the limitation of the association, fifty-two weeks, and were on the company's relief list, and six men who had exhausted all sick relief and were simply carrying the life insurance part of the association on the lists. Dr. Wagner keeps track of all these people.

WORKING TWELVE HOURS.

In order to facilitate work and to give the men employed sixty hours labor each week the ten men in the night gang at the Pittsburg boiler shop will hereafter work twelve hours per night the five first work days of the week. They will not work on Saturday and Sunday nights.

A BUSY SUNDAY.

As usual this fall, Sunday was a busy day with the transportation department of the Pennsylvania. During the day and night there were fifty-seven trains handled on the western division of the road, and to do it every engine that could "turn a wheel" was in service at some hour during that period.

WILL NOT COME HERE.

Superintendent of Motive Power F. D. Crawford, of the Pensylvania, went to Birmingham, Pa., yesterday to join President A. J. Cassatt and accompany him on an inspection tour of a part of the Pennsylvania company lines. The itinerary of Mr. Cassatt, as received here, does not include a visit to Fort Wayne, and it was on this account that notice of his inspection tour was not received here except so far as it affects the Grand Rapids and Indiana road. On the trip more attention will be paid to properties acquired recently than to such old lines as the Fort Wayne. Mr. Cassatt and party will go to Grand Rapids, via Toledo; thence over the Grand Rapids and Indiana road to LaOtto, where they will take the Eel River road and make a close inspection of that property. From Logansport the inspecting party will go direct to Pittsburg via the Panhandle. The trip over the Grand Rapids and Indiana road will be made Tuesday afternoon, leaving Grand Rapids on a special train at 2 o'clock and reaching the Eel River road at 5:40 o'clock.

TAYLOR RESIGNS.

Operator Harry Taylor, of Master Mechanic G. S. McKee's office, has resigned and will leave in a day or two for Mar Rouge, La., to take a position with the Missouri Pacific company. Mr. Taylor has been here about a year, coming from Tipton, Ind. He is succeeded here by I. L. DeBolt, of Toledo, who has been working the "trick" two weeks, during the absence of Mr. Taylor on his vacation.

INDUSTRIAL NOTES.

Brakeman Henry Spath, of the Grand Rapids, is sick and off duty.

Pittsburg Engineer David Raidy has moved into his new home on Bass street.

George D. Anderson, east yards freight clerk, is off duty on account of sickness.

Oscar Waler, of the Pittsburg machine shop, is off duty on account of injuries received Saturday.

R. Hartnett, of the Pittsburg shops, was called to Chicago yesterday to see a relative who is very sick.

Night Foreman W. S. Fitch, of the Pittsburg freight house, has returned to work after a two weeks' vacation.

E. Croninger, of the Pittsburg round house, will visit friends in Mansfield, Ohio, a few days this week.

Switchman Fred Thiebold, of the Pittsburg, is off duty on account of the sickness of some member of his family.

Charles Philley, who had been sick about two weeks, resumed his duties in the Pittsburg blacksmith shop this morning.

Brakeman F. Gallivan is sick and Brakeman A. G. Rosenburg has left the city on a visit. Both are Nickel Plate employes.

Henry Hille resumed his duties at the Wabash baggage room this morning, after an absence of several weeks on account of sickness.

Pittsburg Engineer J. C. Pearson, who had been off duty several days on account of sickness in his family, reported for work this morning.

Al Fereter, Pearl Biegler, H. Peipenbrink, F. Gleusencamp, W. F. Krudop, H. C. Roan and George Bireline, Pittsburg shopmen, are sick.

Louis Hass, assistant foreman of the Pittsburg freight office, resumed work this morning after a two weeks' absence on account of sickness.

L. C. Brudi, of the Pittsburg shops, is spending a day or two in the country. Louis Gronau, of the same shop, is looking after some private business.

Assistant Master Car Builder Frank Sweringen resumed his duties at the Pittsburg shops this morning, after an attack of pleurisy, which confined him several days.

On account of repairs to the boilers the Bass blacksmith shop suspended operations in part Saturday noon. The shop was put in full operation again this morning.

Engineer F. M. Redman, of Wabash switch engine No. 34, went to Peru yesterday to spend a few days and Engineer Swartz is taking his place at the throttle.

C. E. Romy, who had a finger hurt a week ago, and J. H. Beitzell, who was sick a few days, resumed their respective places in the Pittsburg planing mills this morning.

Mr. and Mrs. Ed Buuck, of 115 Smith street, are entertaining a baby boy, who arrived at their home a few days ago. Mr. Buuck is eployed in the Pittsburg planing mills.

N. A. Peltier, Pittsburg fireman, is nursing a painfully wounded foot and will be off duty a few days. The member was injured Saturday while Mr. Peltier was out on his run.

W. S. Cutshall, clerk at the Pittsburg shops, is expected home from Pennsylvania today. With his wife, Mr. Cutshall has been visiting relatives in that state eight or ten days.

Engineer W. H. Hilliker reported for duty on the Pittsburg yesterday. He had been off about a week on account of the illness of his mother at first and later because of a sprained back.

The Nickel Plate piledriver has gone to Cleveland to be used in making some important improvements at that city. The machine has been at work on the west end of the road a week or two.

Frank Lightfoot, treasurer, of the Bass Foundry and Machine company, is taking his annual vacation, which he will devote to a trip throughout the eastern states. He will spend a few days at Buffalo.

J. W. Wilson, of the Pittsburg machine shop, has gone to Chicago to spend a few days with friends.

The electric works this morning sent a 2,000-light dynamo and all the trimmings to East Chicago, Ind.

G. Roepke, machinist, resigned his position at the Wabash shops Saturday night. He will take a position elsewhere in a few days.

J. A. Dildine, chief motive power clerk of the Panhandle, with headquarters in Columbus, Ohio, was in the city today on railway business.

H. C. Mennewisch, a steam fitter employed at the east car shops, is off duty on account of an injured finger, the result of an accident last Saturday.

During the absence of General Foreman William Paul from the Wabash shops, Charles Z. Bond is filling that office. Mr. Bond is round house foreman.

Bert Olds has gone to Cambridge, Ohio, and J. W. Hilgerman to Celina, Ohio, to install some electric machinery built at the Fort Wayne Electric works.

Paul Miller resigned a position in the Wabash shops Saturday evening, fearing that the heavy lifting he is required to do there would hasten a malady that has threatened him for some time.

Mrs. William Palmer, of 180 Taber street, wife of the axlesmith at the Bass shops, and their two sons have gone to Sheldon, Ind., to spend a week with her aged mother, Mrs. Harkenrider.

Agent Joseph Sullivan, of the Wabash, attended the funeral of his brother-in-law in Lagro today. The deceased was a brother to Mrs. Sullivan and that lady has been at his home for several days.

Pittsburg Conductor M. Cave, accompanied by his wife and little niece, left over the Grand Rapids and Indiana road last night for a few weeks' visit with Mr. Cave's parents in northern Michigan.

Harry Fitzpatrick, who recently went to Chicago to take a position as salesman for the Sargent company, dealers and manufacturers of car supplies, is doing well and is well pleased with his situation.

Mrs. William Eggeman, wife of the Pittsburg fireman, has returned from a visit near Hoagland. Her mother and grandmother, Mrs. C. T. Lipes and Mrs. Robert Small respectively, accompanied Mrs. Eggeman home.

Contractor Otto Bengs this morning commenced the erection of a house for Fred A. Knoche, foreman at the Bowser oil tank works. The house will be located on Thomas street, a short distance south of the factory.

William Bittler, superintendent of waterworks of the Pittsburg, went to Liverpool, Ohio, this morning to start the work of putting down a driven well at the junction for drinking purposes for the towerman and other employes.

Machinist Martin Hobrock, of the Pittsburg shops, was summoned to Decatur last night by a telegram informing him of the dangerous illness of his brother, who lives with his father on a farm. The sick man has typhoid fever.

Conductor S. McMahon, who has been troubled with rheumatism for several days, is still a sufferer from that cause and is unable to perform his train duties. Conductor Long is "doubling" during the sickness of Mr. McMahon.

Walter R. Gerberding, formerly chief clerk in the Pittsburg warehouse, bade friends good bye yesterday and last evening left for Kansas City, where he will assume an important office with the Chicago and Great Northern road.

J. A. House, ex-conductor on the Nickel Plate road, has accepted employment with I. N. VanSlyke, general agent for the Mutual Union Insurance company. Mr. House is one of the best known railway men in this part of the country.

Another party of applicants for positions has passed the rigid examinations required by the Pennsylvania and their names have been added to the list of brakemen. They are T. J. Tolan, Owen Unger, Thomas Kavanaugh and C. A. Brunce.

Machinery is being placed in the new factory of the Haberkorn-Haley company, out in the east end, and the shop will soon be put in operation. The company has good reasons for believing that there will be a demand for their engines as soon as they are in shape to build and deliver them.

The painters have completed and turned over to Foreman G. A. Szink, of the Pittsburg blacksmith shop, his office, and this morning Mr. Szink and his clerk resumed their desks there after being deprived of them three or four days. The new office presents a pretty appearance.

The Fort Wayne Iron and Machine company has received an order to build a twenty-horse power gas engine for the Tobey Glove company. The present engine in the glove factory has been found inadequate to the needs of that growing institution and a larger one was necessary.

The Grand Rapids and Indiana road took 225 excursionists to Rome City yesterday. A feature of the business was a number of passengers who went to the resort just for a quiet day on the lake and not to fish, though there were many fishermen. The day was an ideal one and the lake was as smooth as "glass" during the entire day. Fishing was good only during the early morning hours and the man who did not commence that sport until later came home empty handed.

Harry P. Bitner and Miss Margaret Davidson will be married next Wednesday at Chicago. Miss Davidson's parents reside in this city and she only recently went to Chicago to live. Mr. Bitner is a Pittsburg fireman, with headquarters in this city. Both are popular with their acquaintances.

The East Car Shops' Athletic association will hold a meeting at the Neumeier hall, Lewis and Ohio streets, Saturday evening, which will be a combination of business and pleasure, and will be enjoyable to all participants. The association proposes to advance its interests in this manner and meetings of this kind will be held at regular intervals throughout the autumn, winter and spring.

Homer Honn resumed work in the Wabash blacksmith shop this morning. He had been off duty on account of the condition of his wife, who has been in St. Joseph hospital for some time, and who was taken worse last Friday. Mr. Honn also suffers from the affection of the eyes and it was thought last week that he would have to go to the Springfield hospital, but there has been an improvement and the trip will not have to be made at this time.

Boilermaker James A. Fred is again at the Wabash railway hospital in Springfield, Ill., suffering from an affection of the ears, which disease confined him there several weeks last summer. The last attack occurred two weeks ago when Mr. Fred was visitng his parents in Indianapolis, and he immediately went to the hospital. He is improving and writes that he will be able to resume work in the shops in this city November 1.

The Bowser company is receiving an unusual number of orders for oil tanks from its eastern agent, E. M. Savercool, who has twenty salesmen under his direction. Saturday the company shipped a car load of tanks to Boston, which, following close upon other shipments to Atlantic seaboard cities, is considered very good business. The business seems to be equally as good in the west and south, and everything seems to point to a record breaking sale of tanks the coming winter.

POLICE MAY FIND AN OWNER.

Indianapolis, Oct. 19.—John Miller, residing ten miles south of this city, called upon the police last evening on a strange mission. He produced a pocketbook containing a large sum of money, which he says he found eight years ago on the public highway, and which fact he immediately published in the newspapers, offering to return the pocketbook if the owner would prove it to be his by describing the book and contents. In the eight years that he has held the treasure he has received over 300 letters asking about it and giving descriptions of pocketbooks that the writers claimed to have lost. None of these descriptions fitted the particular find, and Mr. Miller has despaired of ever finding the owner. He asked the police to take up the search, and, in case the owner is not found, he requested that the money be turned over to some charitable institution. The police refuse to say how much money the book contains.

SLATERS IN COURT AGAIN

PATER FAMILIAS CHARGED WITH ROUGH HOUSING.

Same Man Whose Daughter Shot Him in the Back Some Months Ago—Mass Meeting in Court.

There was a real old-fashioned mass meeting at police court again this morning. There were present plain drunks, vags, hoboes, wife-beaters, street walkers and Jack Devany, who can not be classified.

Monroe J. Slater was charged with drunkenness, and the witnesses against him were his wife and son. It was shown that he came home and threw a book at his wife, missing her, and that he kicked at her but did not reach her. He then ordered the family out of doors, and the family went, when the police were called. The examination was going along to show that Slater had abused his family, when the judge interposed: "You can't fine a man for being drunk on his own pemises. There is no evidence here to show that he was drunk in a public place. You had better change the charge to assault; I dismiss the case."

A new affidavit was speedily drawn and the same evidence was submitted. Slater took the stand in his own defense. He said he had not assaulted his wife as stated; that when he came home at 9 o'clock he met his wife on the stairway and she upbraided him; that they had some words and that he told the whole family to get out; that he had not received decent treatment from his wife or children and that their sole ambition was to keep him in jail. Appropos, it will be remembered that on the 21st of last February a similar racket occurred at the Slater homestead on Barthold street, during which Slater's daughter procured a revolver and shot her father in the back, while he was assaulting her mother. Slater was jailed and bound over to the circuit court and served three months and three weeks in jail. He stated this morning that as soon as he was safely in jail a young man of whom his daughter was enamored went to the house to board; that when he got out of jail he objected to the conduct of his daughter and the young man, but that the daughter was upheld by the mother, who said that the young folks were engaged to get married anyway; that shortly after the young man went to Marion and soon sent for the daughter, who went there and who he believes is there now, living with the young man, but not married to him. He further alleges that all his domestic troubles originated through the conduct of his daughter. This put a different light on the subject, but a fine of $5 was assessed against Slater, which was suspended as long as he kept way from the house. Mrs. Slater said that was satisfactory to her, as she intended to get a divorce and did not want to be bothered by the defendant any longer.

TWO CHOICE BIRDS.

Jeanette Walton, of Henze fame, and Rose Fields, who several months ago cleaned out a Holman street saloon with a butcher knife, were up for drunkenness. Both entered pleas of guilty and then followed a long examination at which the Misses Walton and Fields proved themselves post-graduate witnesses. The aim of the court was to discover where they got the whiskey and the court knows as much about it now as it did before the examination commenced. The girls had been riding in a merry-go-round until they got sick. Then Miss Fields called a boy whom she did not know, gave him a quarter and told him to bring her fifteen cents worth of whiskey. The boy disappeared and finlly came back with some whiskey in a bottle, which they drank and the officers did the rest. Miss Fields did not know the boy, don't know where he got the whiskey and wouldn't remember his face if she saw it again. The judge administered a fine of $1 and a lecture.

OTHER CASES.

There was an ordinary charge of drunk preferred against Jack Devany, and it went pretty hard with him, as the judge tacked a fine of $50 and costs against him, which will probably hold him for a while.

Thomas Overly, who has been pretty good for a long time, was charged with drunkenness. He made an eloquent plea in justification, but was fined $1 and costs. He offered to "make a bargain" with the court by being allowed his liberty so that he can earn the money, and said he would turn in $3 a week until the fine was paid. The judge said he would see him after adjournment and as Overly is a hard working man but sometimes dissipated, it is likely that the judge modified his judgement.

Frank Wilson, who has the word hobo written on every lineament of his physiogomy, was arrested for being drunk and was given an hour to get out of town. He is a cripple and sells lead pencils, using the proceeds to buy jags with. He hobbled out of court and said the town should see him no more.

Andy Schlinker, a plain drunk, who was up a few weeks ago, was given another dose of $1 and costs, and Amos Wood suffered a similar sentence. Of all these cases tried there was no cash results, and with one exception, all the victims were in consequence of Saturday drunks.

NEWS OF THE POLICE.

William "Chippy" Klug and Frank Perry yesterday assaulted John Cerull, Nickel Plate watchman at the Walton avenue crossing and beat him up pretty badly. The boys, under the influence of liquor, came from the east on the track, and with some companions, had a real or mock fight near the watchman's shanty. Nickel Plate trin No. 3 was just about due and the watchmn, solicitous for their safety, ordered them off the right of way, which brought on some words. After the train had passed the two named assaulted the watchman, who this morning filed an affidavit against them. The warrants were placed in the hands of the officers.

Superintendent Gorsline and Detective Coling are at Chicago today, testifying in a case against a man named Allerton, charged with forging a railroad pass. The arrest was made here by Detective Wilkinson but the man made some admissions to the superintendent and Coling which the railroad company wishes to use in the trial. They will return home this evening and in the meantime Lieutenant Lapp is the high mogul.

Officer McKendry is on the sick list and was not on duty last night.

A man named Farner, living at 165 Holman street, reported that someone had stolen a shotgun from his wagon while standing in front of his residence. He described the gun and asked the officers to locate it if possible.

A farmer named Irwin was in collision with a wagon near the corner of Grand and Calhoun streets yesterday. Farmer Irwin had some damage done to the vehicle which he was occupying and wants the other fellow arrested. Unfortunately for his cause nobody knows who the other fellow was.

IN JUSTICES' COURTS.

The Greely street chicken case to have been heard in Bullerman's court this morning has again been postponed, this time until next Saturday.

The house-of-ill-fame-pull still seems to be hanging fire. Warrants are in the hands of some of the constables, but returns have not been made in all the cases.

William Palmer, of Chicago, has returned home after a visit with friends in the city. Mr. Palmer was formerly with the Bowser Oil Tank works, in this city.

THIEVES MAKE A GREAT HAUL

Chicago Postoffice Stamp Vault is Tunneled and Over $70,000 in Stamps Stolen.

A CLEVER JOB AND NOT A CLUE

Chicago, Oct. 21.—A sensational robbery which netted the perpetrators $74,610 in stamps was discovered here this morning when the stamp department of the postoffice was opened for business. A rapid investigation developed the fact that the burglars had crawled under the flooring for about 300 feet, bored a hole in the bottom of the vault, secured the stamps and escaped, carrying their booty in a wagon.

The work of forming an entrance to the vault had evidently been going forward with the greatest patience for many days. It is believed, however, that the intention of the thieves has been to enter the cashier's vault, in which there was $35,000 in money and stamps valued at hundreds of thousands of dollars. The bottom of the vault is of steel half an inch thick. In this ninety-seven holes were bored until a space eighteen inches square—just enough to allow the entrance of a man's body—had been so weakened that it was possible to take out the whole plate with little difficulty. A dry goods box stood over the hole this morning and concealed the work of the robbers while it was in progress. When discovered today the finger marks of one of the burglars were still discernible on the dust of the box, which he had pushed to one side.

JOB SKILLFULLY PLANNED.

So skillful had the job been planned that men working in other parts of the building had not the slightest inkling of the daring robbery being worked almost under their noses.

The robbers drove up to the southeast corner of the postoffice building in a wagon, the tracks of which could be seen plainly today. The building is a temporary affair and the men had only to open a little door to admit themselves under the flooring. To reach the vault it was necessary to crawl about 300 feet over odds and ends of boards which littered the way. The route evidently had been carefully studied, for a detective who went under today without knowledge of locations became lost and was nearly overcome by the foul odors before assistance reached him. Having secured their plunder, the robbers loaded it into the wagon, drove across a vacant lot and turned into Wabash avenue in front of the art building.

Of the $74,610 in stamps taken, $4,712 were in postage stamps and $2,060 in special stamps. So the convertable stamps amounted to $67,828, but of these $4,828 were Pan-American stamps of eight and ten-cent denominations.

Spalding, chief clerk of the wholesale stamp department, discovered the robbery when he opened the vault at 7:50 o'clock. The safe had been locked, with its contents apparently secure, at 5 p. m. Saturday. Mr. Spalding notified Inspector Stuart, who hurried from his home and immediately began an investigation, assisted by his deputies and a squad of detectives.

LARGEST STAMP ROBBERY.

After completing the search Inspector Stuart said:

"It was the largest stamp robbery ever committed in the history of the postal service in this country. To get to the vault the men dug through the brick foundation wall and a hundred feet or so further on they encountered another wall, and this also they dug through. On the way they met with a number of pipes, and as the floor is but two feet and in some places three feet above the ground, they tunnelled under the pipes. Their whole course is plainly marked in this way. The wholesale stamp vault, like the cashier's vault and the money order vault, is supported by a brick wall. It forms a square and, before the robbery, was air light. In this the robbers broke two holes, possibly to secure more air, for the place undoubtedly was very foul, or to have an extra place of egress in case of discovery. For light they used dry batteries, one of which they left behind. This battery and the wagon tracks are the only clues we have at present.

HOW IT WAS DONE.

"The space under the vault is sufficiently large for a man to stand upright and their work must have been comparatively easy with the drills and steel saws which they used. The stamps were arranged in twenty-pound bundles, and the weight of the load they carried off must have been 500 pounds. Evidently one man handed the packages down to others waiting below. As their progress must have been slow carrying even one bundle through all those tunnels, crawling on all fours, I judge they worked for hours getting their booty to the wagon.

"Apparently they felt perfectly safe, though somewhat disappointed at missing the cashier's vault, where there was $35,000 in cash and a great quantity of stamps. I cannot tell now how many men worked at the job. Every effort will, of course, be made to recover the property, and capture the men who took it."

Postmaster Frederick E. Coyne is in Washington. He is responsible for the loss till an act of congress frees him from it. For amounts up to $2,000 the postmaster general has authority to relieve postmasters.

Of the stamps stolen 1,776,000 were one-cent and 1,662,900 two-cent stamps. The robbers got 150 $1, 307 $2 and 105 $5 stamps also, but Inspector Stuart said he thought they would have difficulty in disposing of the larger denominations.

PLAINTIFF WANTED MILLION

COURT GAVE A VERDICT FOR $40,300.

Judgment Rendered in a Suit Concerning the Manufacture of a Wall Finish.

Grand Rapids, Mich., Oct. 21.—The $1,000,000 damage suit of Melvin B. Church vs. the Anti-Kalsomine company, of this city, was today decided by Judge Wolcott, of the circuit court, who was chosen as arbitrator after a jury had disagreed at the trial several weeks ago. He awarded the plaintiff a verdict for $40,300.

Church was the inventor of a certain wall finish and had a contract with the Anti-Kalsomine company, which manufactured the product. He alleged that the officers of the company violated this contract by organizing another company to compete with the Anti-Kalsomine company. The award is based on the alleged violation.

COUNTED THE COTTAGES.

Some of the Fort Wayne visitors to Rome City yesterday made a count of the summer cottages which dot the shores of Sylvan lake and bring the information that the total number of summer homes erected there is 141. Of this number it is estimated that at least one-half are owned by Fort Wayne people, and from fifteen to twenty have been erected during the past year. Preparations are also under way for a number of new cottages which will go up next year, and Rome City is destined beyond a doubt to grow in favor with Fort Wayne people as a summer home. Another feature noted is that the cottages recently erected are much better and more substantial than those which were first built.

The Women's Christian Temperance union will meet tomorrow afternoon at 2:30 o'clock, at the home of J. W. Burns, 52 Brackenridge street. Reports from the state meeting recently held in Kokomo will be heard.

READY TO BEGIN

DUNN MURDER TRIAL STARTS TOMORROW.

OPENING SET FOR 10 O'CLOCK

SPECIAL VENIRE OF EIGHTY HAS BEEN DRAWN.

MAY SECURE JURY IN A DAY

TRIAL MAY BE COMPLETED IN TEN DAYS.

Tomorrow morning at 10 o'clock, before Hon. Edward O'Rourke, in the Allen circuit court, will be called the case against Charles Dunn, of Wallen, indicted by the recent grand jury for the murder of little Alice Cothrell at Wallen in July last.

Far more than ordinary interest centers around the already famous case, and during the past few days the court officials, attorneys for both the prosecution and the defense, as well as Sheriff Stout and his deputies have been actively engaged in completing the final details for the beginning of the trial. The summoning of the special venire of eighty names drawn by the jury commissioners some weeks ago has just been completed, and the list is now first made public.

When the officers came to serve the official notifications upon the prospective jurors drawn it developed that three of the names drawn were of persons who had died within the past few months. Nearly every portion of the county is represented in the list, and seventeen of the number are from the city. The name of at least one gentleman who is a witness in the case happened to come out of the box with the others when the names were drawn by the jury commissioners.

IT MAY TAKE A DAY.

The concensus of opinion, both upon the part of the prosecution and of the defense, is that an acceptable jury can be secured in about a day, so that in all likelihood the taking of testimony can begin on Wednesday. Prosecutor Emrick thought it uncertain. A jury might be selected in a few hours, and it might take a day. Attorney Colerick, the chief counsel for Mr. Dunn, placed his estimate at twenty-four hours.

Both prosecution and defense have gone deeply into the case, and while Prosecutor Emrick expresses confidence in the state's case against the accused man, Mr. Colerick appears equally confident of Dunn's acquittal. Both believed the case would not extend over a period exceeding ten days. Nearly seventy witnesses have been summoned by the state, and Mr. Colerick said today that the defense would present from thirty to forty witnesses upon their side of the case.

It is understood that the defense is manifesting some anxiety over the absence from the state of a witness whom they deem of especial importance. Being outside the state the attendance of the witness can hardly be procured unless she voluntarily returns to the state in time to give her testimony.

This morning court room No. 2, the one next south of the circuit court room, was supplied with about 150 extra chairs, which were placed by the janitors of the building. This room is being prepared as an assembly room for the extra eighty jurymen and the hundred or so of witnesses who will be present to testify in the Dunn case. The circuit court room, large as it is, would be found entirely inadequate to accommodate all the persons directly interested in the trial.

CELEBRATE DOUBLE WEDDING

GOLDEN AND SILVER ANNIVERSARIES OBSERVED.

Mr. and Mrs. Peter Hohnhaus and Mr. and Mrs. Fred Eisennacher Entertain Friends Sunday.

A "double-header" wedding anniversary was celebrated on Sunday afternoon at the residence of Mr. and Mrs. Peter Hohnhaus, 63 Wall street, it being the occasion of the fiftieth anniversary of Mr. and Mrs. Hohnhaus' marriage and the twenty-fifth anniversary of the wedding of their daughter and her husband, Mr. and Mrs. Fred Eisennacher.

The celebration was preceded by a special sermon in honor of the occasion by Rev. H. P. Dannecker, of St. John's Lutheran church, at 2 o'clock. The church was crowded to the doors and an interesting feature of the service was a special program of music by the choir. At the close of the service friends and relatives to the number of about a hundred gathered at the Hohnhaus residence and the afternoon and evening were spent in a most delightful manner. Among those present were the members of St. John's choir and the quartet of the church, and during the afternoon and evening some excellent music was furnished.

At 6 o'clock supper was served and the assembled guests did ample justice to the good things under which the table groaned. Mr. and Mrs. Hohnhaus and Mr. and Mrs. Eisennacher were toasted frequently and they responded in a most happy manner. They received numerous handsome gifts, golden for the former and silver for the latter. The festivities were continued until a late hour, when the guests departed, wishing the two couples many happy returns.

Mr. and Mrs. Hohnhaus celebrated their silver wedding anniversary twenty-five years ago, and on that day their daughter became the wife of Mr. Eisennacher. There are two sons, Prof. Carl Hohnhaus, of Buffalo, and George Hohnhaus, of Chicago; a daughter-in-law, Mrs. Gust Ryan, and six daughters, Mesdames Christ Greiner, Fred Eisennacher, William Brudi, Fred Roembke and George Hohnhaus and Miss Dora Hohnhaus. There were twenty grandchildren present yesterday. The house was handsomely decorated in yellow, white and green, chyrsanthemums and palms being used.

Mr. Hohnhaus is foreman of street repairs and is one of the oldest and most respected citizens in Fort Wayne.

LECTURE WAS INTERESTING.

A fair-sized audience at the rooms of the Commercial club Saturday evening heard Dr. W. H. Tolman, of New York, deliver his lecture on "Social and Industrial Betterment." It was profusely illustrated with stereopticon views and was splendidly given. Dr. Tolman dealt at length with the relations between employer and employe as they exist in many of the larger cities of the country, and told how they might be made more satisfactory. While his lecture was entertaining and instructive, it had perhaps little application in Fort Wayne, for the reason that conditions here are far more admirable than many of those pictured by Dr. Tolman. As a student of sociology Dr. Tolman has delved deeply into the relation between capital and labor, and he makes a powerful plea for a high philanthropy.

Mrs. Henry Buhlman, of 90 Baker street, is seriously ill.

BANK ISSUES STATEMENT

THIEVES SEEM TO HAVE MADE THE BANK AGREE.

Lowell, Mass., Oct. 21.—The following statement was made by the directors of the Merchants' National bank:

"The time has arrived when the president and directors of the Merchants' National bank feel that a statement is due the public. Certain securities belonging to the bank were taken from its vaults through the collusion of two of its employes, but have been returned.

"The capital stock of the bank is $400,000 and its surplus and undivided profits $294,600. Both are intact except a deficiency of $115,000, which reduces the surplus and undivided profits to $179,600."

It is understood that the deficiency represents the amount lost through the operations of Teller A. S. Smith and Bookkeeper L. K. Swift before they disappeared last Thursday night.

At 2 a. m. today a number of bags, apparently containing money and bundles of documents, believed to be the missing bonds and bank securities, were delivered to the Merchants' National bank by Lawyer Burke, of Lowell, and Mr. Bartlett, of Elden & Bartlett, of Boston.

As these lawyers have been understood to represent the absent bank men and as the statement was made that the men cleaned out the bank vault before they left in order that they might be in a position to compel the officials to promise immunity from punishment for any wrong-doing which might come to light, it is considered probable that the men have reached an understanding with the bank's managers, and that the property of the institution was returned as a result.

A bank examiner from Washington began work on the books yesterday. The doors opened as usual at 9 o'clock today.

PROGRESS OF SCHLEY CASE

INQUIRY RESUMED AFTER A BRIEF REST.

Captain Cook Again Takes the Stand —Lieutenant Wells Praises Bravery of His Chief.

Washington, Oct. 21.—After two days' rest the Schley court of inquiry resumed its sessions at 11 o'clock today. The court was, as usual, prompt in beginning the proceedings, and not only the members of the court but counsel were apparently in brighter and fresher frame of mind than usual.

After the witnesses of former days had been recalled for the purpose of correcting their testimony Lieut. B. W. Wells, jr., secretary to Commodore Schley during the Cuban campaign, resumed the testimony which he had begun on Friday. After a few preliminaries, he began his narration of the battle of July 3 and was then questioned at some length by Mr. Raynor before he was turned over to Captain Lemly and Mr. Hanna for cross-examination.

Other witnesses called for the day were Mr. Edward Graham, the Associated Press correspondent, who was with Commodore Schley on the Brooklyn from the beginning of the campaign at Hampton Roads until its close; Lieut. Edward Simpson, who served on the Brooklyn, and Mr. Dennis J. Cronin.

CAPTAIN COOK RECALLED.

Among the former witnesses recalled was Capt. Francis A. Cook, who returned to the stand for the purpose of making an explanation of his former testimony regarding the boilers of the Brooklyn.

Captain Cook, who commanded the Brooklyn during the Spanish war, was the first new witness of the day. He was recalled at his own request and made the following statement:

"In my testimony I stated that the Oregon on the morning of July 3 was under all boilers, having shifted her boilers from forward to aft. I stated this from hearsay and presumed it to be correct as accounting for her extraordinary speed. I find that she had not shifted boilers that morning, but that she had steam on all her boilers at all times while in the Santiago blockade."

Captain Cook then was excused and former witnesses were called to correct their testimony.

Other witnesses corrected their testimony and Lieut. B. W. Wells, jr., who was on the stand when the court adjourned Friday, was then recalled and testified regarding the battle of July 3. He said he did not remember the ranges at which the Brooklyn fired, but thought 1,100 yards was the shortest. He described the turn of the Brooklyn and the chase after the Spanish ships.

When the Vizcaya ran ashore the Colon was about 10,000 yards ahead of the Brooklyn and for a time firing ceased. He said that he had received orders to get up a quantity of rapid fire ammunition. Owing to the character of the coast it was expected that the Brooklyn and the Colon would come to close quarters.

He was ordered to have this ammunition ready to close with the Colon and give her a rapid fire when they got close together. He then described the rest of the chase and the final surrender of the Colon.

He said he had not seen the Texas when the Brooklyn made her turn. At one time during the battle, he said, the Brooklyn seemed to be alone, engaging three ships.

Mr. Raynor: "Am I right in saying that you perhaps saw more or as much of Commodore Schley during the whole of this Spanish war as any one else and came in contact with him as much as anybody?"

"I saw him daily and all through each day, generally speaking."

"Did you see him during the time of the reconnoisance on March 31?"

"Yes, sir."

"Did you see him frequently during the day of the battle on July 3rd?"

"No sir. I only saw him during the chase of the Colon."

"Did you see him during any of the bombardments?"

"I saw him during one of them. Exactly which one I cannot distinctly recollect."

"What was his bearing, conduct and manner on any day in which there was a battle, or any other time?"

"So far as my observation went he was thoroughly fearless and self-possessed on all occasions."

"Was he at any time within your knowledge laboring under any mental excitement?"

"No sir."

When Lieutenant Wells had finished his description of the battle the question of dispatches were taken up.

ECHO OF AN OLD MYSTERY

MRS. MESSLER GETS JUDGMENT FOR $5,000.

Wife of Israel Messner, Whose Disappearance Caused Anxiety at First.

In the circuit court this morning Mrs. Mary D. Messler was given a judgment against Israel Messler for $5,000. The suit is one brought by the wife against the husband for an accounting in which she claimed $10,000. The judgment was by default, the defendant not appearing, and the verdict being on the showing made. The parties were formerly well-to-do farmer people in Lafayette township, where they toiled jointly for many years. Finally they removed to the city, and after purchasing a residence in South Wayne their troubles began. Last winter the defendant converted his property, or most of it, into cash and went away, after drawing all his money out of bank. At the time he said he was going to Iowa, and to some he said he was going to California; anyway he went somewhere and the wife was left alone.

When Messler at first disappeared there was much mystery surrounding the incident and his wife and friends were given much apparent anxiety. It was feared that the large amount of money he was known to have about him at the time had proved a temptation to foul play.

FEEL CONFIDENT

AT WASHINGTON OF SAVING MISS STONE'S LIFE.

BY DIPLOMACY, IF POSSIBLE,

IF NOT THEN PERHAPS IT MAY BE BY FORCE.

NO LATE NEWS RECEIVED

RUSSIA'S POWERFUL INFLUENCE AT WORK.

Washington, Oct. 21.—There has been no reports received since Saturday at the state department from Turkey or Bulgaria touching Miss Stone's case. The officials, however, are by no means discouraged and are still confident that they will succeed in saving her life, but whether by diplomacy or by force is not clear. It is gathered that the friendship of the Russian government has responded in the most cordial spirit to the appeal of the state department which, unable itself from geographical and political reasons to exert pressure upon the government of Bulgaria, has been pleased to avail itself of the powerful influence of Russia on that government. The Turkish government has for its part responded in the same spirit to the appeal of the United States and altogether the two governments, Turkish and Bulgarian, probably have been put to a degree of expense equal to the amount of the ransom demanded by Miss Stone's captors in the military operations they have already directed in her interests.

PRIZES AWARDED.

This evening, at Library hall, will occur the presentation of the first and second prizes to the athletes who participated in the events of the Library Hall Athletic association's field day last September. The prizes are gold and silver medals, bearing the monogram, "L. H. A. A.," 1901, and the name of the event for which it is awarded. Those who will receive first prizes are Fred Stahl, Frank O'Brien, P. H. Arants and George Ryan. Those who will receive second prizes, silver medals, are John Tompkins, B. B. DeLaGrange, A. J. Schoenpeln, A. K. Baker, George Sosenheimer and Patrick Morris.

CANADA WILL CO-OPERATE.

Chicago, Oct. 21.—Hon. Sydney Fisher, minister of agriculture of the Dominion of Canada, today notified General Manager E. Skinner, of the International Live Stock exposition, that the Canadian government would co-operate with the United States department of agriculture in waiving established quarantine regulations for the big stock exhibition to be held in Chicago during the first week in December. The Canadian officials announce the suspension of the quarantine rule on hogs entering the Dominion as applied to exhibits sent to the Pan-American exposition.

INDIANS ARE OBSTINATE.

Solway, Minn., Oct. 21.—A. L. Kaiser, of the bank of Fosston, and T. Burke, of the Solway Mercantile company, have arrived from the Redlake Indian agency with dispatches from Agent Mercer to the Indian commissioner at Washington. The Indians refuse to accept the annuity payment unless the money due from logging operations last winter is also paid at this time, as they claim it was promised them by the department. The Indians are in a sullen mood and the excitement at the agency is intense.

PRINCE OF TECK ROBBED.

Halifax, N. S., Oct. 21.—The duke and duchess of Cornwall and York left Canada at half-past 9 this morning in the presence of thousands of cheering spectators. A heavy snowstorm commenced shortly before the Ophir steamed away. Prince Alexander of Teck was the victim of a robbery yesterday, a gold watch, an heirloom which had been in the family for generations, and a purse filled with sovereigns having been taken from his cabin on the royal yacht Ophir.

FOR THE BOY.

Father's clothes cut down no longer suit the youthful master of the house. He must have an outfit quite as carefully made as that of his elders, he has styles all his own, and each season sees some change in them.

This year quite a number of new features are shown. Stripes and mixtures are seen in the new materials instead of perfectly plain colors. The stripes, however, are almost indistinguishable. They are in colors that fade imperceptibly into the hue of the fabric itself. They can hardly be noted, yet they prettily break the monotony of plain colors. It is the same in the mixtures. The general effect is that of one color but a mottled mingling of hue is seen when examined at close range that is a decided and pretty relief from a plain surface.

Collars are a trifle smaller; shoulders are padded to make the little figure look more manly. But it is still remembered he is a boy, and in many suits double seats and knees are provided to make the clothing more durable.

NOTES OF THE DAY.

The managers of four northwestern railroads are leaguing together to stimulate sugar beet cultivation. It requires $500,000 to equip a good factory.

The first chemical factory opened in this country was in Salem, Mass., in 1811. At first great objection was made to the establishment of the factory, the persons living near claiming that the fumes of the chemicals poisoned the air and made life intolerable.

SHOT IN SALOON ROW.

Evansville, Ind., Oct. 21.—In a general row, which occurred in a saloon in this city last night, Noah Fuquay, proprietor of the place, shot William Battag five times, inflicting fatal wounds. Battag, it is said, attacked Fuquay as the result of a quarrel, and the saloonkeeper retaliated by firing the fatal shots.

IS SLOWLY IMPROVING.

The condition of Congressman James M. Robinson is somewhat improved today, although no marked change for the better has occurred. Mr. Robinson passed a good night and his temperature today was 100 1-5; pulse, 84. The conditions are favorable and it is believed that Mr. Robinson is on the road to recovery.

DEATHS AND FUNERALS.

PIRSON.

Mrs. Mary Pirson, wife of J. B. Pirson, died at noon Sunday at the family residence, 4 South Wayne avenue, after a protracted illness. Mrs. Pirson was 60 years of age and her death was due to a complication of diseases.

Mrs. Pirson was a devoted member of Calvary U. B. church and was highly esteemed by all who knew her. The surviving members of the family are the husband, one son and three daughters—A. Pirson, Mrs. Allen A. Bowser, of East Creighton avenue; Mrs. S. C. Throckmorton, of West DeWald street, and Mrs. August Yergens, of St. Joe township.

Funeral services will be held from the residence Wednesday afternoon at 1:30 o'clock.

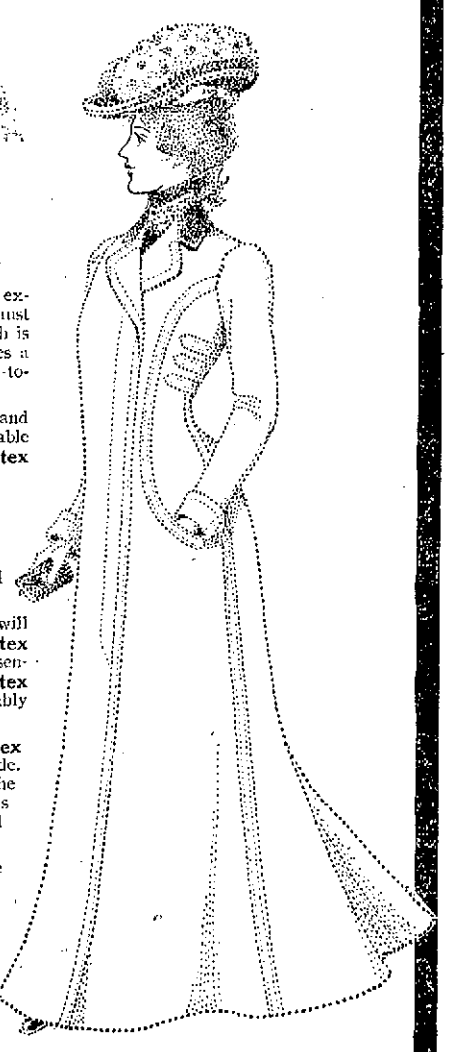
The Making of a Wooltex Garment



How the Materials Are Selected. Trained experts examine every piece of cloth that goes into **Wooltex** Garments. It must stand the strongest chemical test. Not an inch of imperfect cloth is allowed to pass into the hands of **Wooltex** workers. This insures a wearing quality superior to that found in any other make of ready-to-wear garments for women.

Where the Styles Are Originated. In Paris, Vienna, and the leading fashion centres of Europe, wherever a new and remarkable design is produced, a duplicate of it is immediately sent to the **Wooltex** designers, who adapt its best features to the needs of American wearers. **Wooltex** styles meet every demand of Fashion's decree.

Where the Garments Are Made. In one of the best equipped work places of the world hundreds of skilled workers are producing **Wooltex** garments—day in and day out—every workday in the year. Its location is central to keep in touch with the demand on one hand and the best sources of supply on the other.

How They Are Made. Every modern contrivance that will contribute to the better making of women's garments is used by **Wooltex** workers. This insures economy in production and a consequent lessening in price to the wearer. This feature in the making of **Wooltex** garments has helped to make them what they are—the most reasonably priced as well as the finest garments sold to-day.

How They Are Finished. Every detail in a **Wooltex** Garment receives the closest attention. Not a stitch is carelessly made. The hidden parts—where the greatest strain is felt and on which the durability of the garment depends—is as conscientiously cared for as the more prominent parts. The silk for the stitching, the linings and the bindings are the best that can be procured.

How They Fit. The exquisite fit that characterize the **Wooltex** Garments is secured through the modern method of making. Garments are fitted to living *natural* models, and are not shaped to an ideal to which the average woman cannot conform. The garments are made to fit the wearer—the wearer is not compelled to adapt herself to the garment.

Where They Are Sold. The leading dealers in your locality carry **Wooltex** Garments. You can easily distinguish them by the **Wooltex** tag, which is not only a mark on the garment, but also a guarantee for fit, finish and durability. If you cannot procure the new **Wooltex** Fashion Book from your local dealer write to

FOOT BALL NOTES.

Van Wert developed a yellow streak and did not show up for a game Saturday, and Auburn kindly consented to come down and assist in providing entertainment for the crowd of four hundred people at League park in the afternoon. There were three Fort Wayne boys with the Auburn team, and the visitors put up a very good game. In the first half neither side scored, the locals playing a rather dopey game, while the visitors fought for every yard, the half terminating near the center of the field. In the second half the Library hall boys came to and proceeded to do business. With a succession of line plunges and end runs Auburn was forced down the field, being penalized at her five-yard line for off-side play. The visitors made a desperate stand in the last ditch, but Evans made a plunge through center and scored a touchdown. The try for goal was unsuccessful. In the next few minutes of play Long punted and Fort Wayne held the visitors for downs. At Auburn's twenty-five-yard line Evans made a magnificent run around Auburn's right end and scored another touchdown. Long failed to kick goal, and the score was 10 to 0 in favor of Library hall. Right Half Back Evans was the star for the Fort Wayne boys, and Hopkins, Long, Menzies, Jones and Nolan also did excellent work. Evans scored both touchdowns and made frequent long gains around ends and through the line. Brown, of Auburn, and John Eggemann, of this city were the officials.

The high school team was defeated by Huntington Saturday by a score of 27 to 0. The local team had three substitutes in the game, and they had the additional handicap of being lighter than their opponents. Dunten, McCormick, Wilt and Preston carried off the honors for Fort Wayne. The return game with Huntington will be played here Saturday, Nov. 23.

Scores of the big games Saturday were as follows: Ann Arbor, 29; Northwestern, 0; Cornell, 17; Carlisle, 0; Princeton, 35; Brown, 0, Pennsylvania, 6; Bucknell, 0; Illinois, 24; Chicago, 0; Yale, 22; Penn State, 0; Annapolis, 18, Lehigh, 0, Harvard, 6; West Point, 0.

Following are the scores of some of the games in Indiana Saturday: Wabash, 23; Rose Polytechnic, 16; Butler, 30; Earlham, 0.; Indianapolis, Manual Training, 6; Culver, 0; Purdue, 19; DePauw, 0; Indiana, 76; Franklin, 0; Vincennes, 10; Orchard City, 6.

Herbert A. Davidson, of Worcester, Mass., full back on the University of Pennsylvania, has been elected captain of the team.

Kendallville has challenged the Library hall team for a game next Sunday at Kendallville.

Ask Him

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows the formula, so ask him if there is anything better for purifying the blood, strengthening the digestion, and building up the nerves. Follow his advice, whatever it may be.

"I have taken Ayer's Sarsaparilla every spring since 1848. As a blood-purifying and nerve-strengthening medicine it cannot be equalled."

A BAD MIX-UP.

While responding to an alarm of fire from the Davis Medical institute last evening a serious collision occurred at the corner of Court of Berry streets between the hook and ladder truck and the fire engine from No. 1 engine house. The horse on the right hand side of the truck was thrown against the engine, and the harness becoming entangled, held him between the front and rear wheels. A gash half a yard in length and about five inches in width was cut in the horse's hip, and the animal will probably have to be shot. One of the engine horses was thrown from its feet by the force of the collision, and the front wheels of the engine passed over it, leaving it wedged beneath near the fire box. The engine was jacked up as soon as possible and the horse was released, none the worse for the accident. The driver, Frank Hensel, was pulled from the box, and sustained a sprained ankle. The fire was of little consequence and originated in a small heap of waste paper in the cellar of the Baltes building.

MEMPHIS RACES BEGIN.

Memphis, Tenn., Oct. 21.—The autumn meeting of the Memphis Trotting association will begin at Billings park this afternoon and continue throughout the week. The entries lists have been well filled and high class sport is promised. The feature of today's card will be the attempt of Little Boy, owned by C. J. K. Billings, of Chicago, to lower his pacing record of 2:02, hitched to a wagon recently made in New York. A special train from Lexington bringing 250 horses arrived yesterday at the park. Among the arrivals are some of the foremost trotters and pacers in the country.

SEASONABLE HINTS.

GUARD YOUR HEALTH IN FALL AND EARLY WINTER.

A change from warm to cold is always attended with more danger than from a cold to a warm temperature, hence the greater mortality from lung and throat diseases at this season of the year as compared with spring.

The best protection against colds is not so much in extra clothing as in good digestion.

If the digestion and circulation are good, colds will be unknown.

Poor digestion causes poor circulation of the blood and when in this condition severe colds are contracted on the slightest provocation.

People who make a regular practice of taking Stuart's Dyspepsia Tablets after meals are free from colds, simply because their digestion is perfect, the heart strong and regular and the whole system fortified against disease.

It requires little argument to convince anyone that the best safeguard against colds, pneumonia and changes of temperature is a good stomach.

Stuart's Dyspepsia Tablets taken after meals are dissolved and mingling with the food cause it to be promptly digested and assimilated; they do this because they contain nothing but harmless digestive elements, which digest meats, eggs and other food even when the stomach itself is weak and fagged.

Stuart's Dyspepsia Tablets make people well and keep them well, and the best habit you can acquire is to keep daily use of them at meals to make the digestive organs strong and vigorous.

TWO BOYS' MODEL MINE.

A very ingenious model section of the gold coin mine at Victor, Col., has been made by two boys of that place, Larson Grady and Victor Nelson. At the surface are the shaft house, engine room and ore houses. The underground part of the mine is represented by four levels, with men at work in the slopes, "breast" and drifts. The model is made true to scale, and is operated by a six-horse-power motor. The boys will exhibit the model in various cities.

A Kentucky man who has just married his fourteenth wife had buried four and divorced nine of the predecessors of the latest candidate for the fatal joys of his affection. The ease with which one may get married in Kentucky is exceeded only by the convenience with which one may get a divorce.

If the United States purposes to include in its general plans of pacification of the Philippines the island of Samar more regiments are needed there. It is very evident that else than business-like fighting will not bring the natives to understand what authority must be respected. Samar has already cost us heavily in men and other treacherous plots are being discovered.

The triumph of M. Santos-Dumont in circling with his airship around the Eiffel tower and returning to his starting-point within a given time does not mean that aerial navigation is soon to become as common as auto-locomotion. It doubtless will be a long time before we can navigate the air in any practical sense. But the Brazilian aeronaut has proved that aerial navigation is possible. He has compelled his machine to obey him in accomplishment of the thing he set out to do. That is a great deal.

Another electric railway project is headed toward this city and, of course, we want it. It is but one of several that will come in here within a short time if they can get in. But this city must get into better shape to welcome these enterprises. They must be met with promise of something better than a fight if it is expected they will put Fort Wayne on their maps. Some plan that will solve the whole general interurban question must be adopted and prosecuted. While Fort Wayne will be good for the interurbans, it should not be forgotten that the interurbans will be just as good a thing for Fort Wayne. The matter must be dealt with in some spirit of reciprocity.

LEASED RANDALL HALL.

Team Drivers' union No. 78 on Saturday afternoon closed a lease of Randall hall, where the union will hold its meetings in the future. Members of the union have issued invitations for the opening ball to be given Thursday evening, October 31. Prizes will be given for the best costumes.

About a dozen of the "Moochers" went to their camp and club house, near Robison park, this morning, where they expect to remain about a week.

IS ANXIOUS TO PROSECUTE

GAS INSPECTOR LEACH REPLIES TO STRICTURES.

Says He Is Making Every Effort Possible to Prevent Waste By Big Corporations.

Kokomo, Ind., Oct. 21.—A pamphlet accusing State Natural Gas Supervisor J. C. Leach of numerous derelictions is being circulated in his own home town. The pamphlet accuses Mr. Leach of prosecuting farmers for small waste of gas and permitting big corporations to disregard the waste law. The main charge is that Supervisor Leach permits the Indiana Natural Gas and Oil company to use pumps in piping gas to Chicago. In an authorized interview in refutation of the charges, Professor Leach said:

"This pamphlet has been published presumably by the Chicago, Indianapolis and Evansville railway, which is having a fight with the gas company that is piping the fluid to Chicago. The pamphlet says that evidence has been presented to me that the company is using pumps to increase the flow of gas. That is true. An affidavit was given me by officials of the road that compressor pumps were being used by the Indiana Gas company (Chicago Pipe Line company). I wrote the attorney general asking for an opinion. His first answer was that it was not unlawful to use pumps. I consequently could not prosecute on that affidavit. In a later opinion the attorney general stated the use of pumps was unlawful. On receiving this opinion I went at once to Prosecuting Attorney Amsden, of Grant county, saying I was ready to proceed with the prosecution on the affidavit. Mr. Amsden, in a long opinion, stated that it was no violation to use the pumps and that he could make no case. He declined to prosecute or file any affidavits. I wrote the attorney general then, giving him a list of the eighty pumping stations in Indiana and a complete statement of what action I had taken. I stand ready to bring any prosecutions the attorney general may advise."

WASTE OF NATURAL GAS.

Hartford City, Ind., Oct. 21.—Much natural gas is being wasted in this county. Last Friday night a party of manufacturers and newspaper men made a tour of the oil field bordering on the city limits. The result of their investigation was even more astonishing than was expected. Nearly fifty flambeau lights illuminated that entire part of the field while old pieces of sheet iron were laid on the ground under which the gas from two-inch pipe was allowed to escape and burned. The boilers used to pump the wells by the "walking beam" method resembled the stacks of rolling mills. Long red flames burned five and six feet out of the stacks and the steam pressure was 120 pounds, while but twenty pounds are required. Besides this the casing heads at the wells were open and unburnt gas is allowed to pass off into the air. These great torches are still burning today and have been ever since the oil field was opened. As a result of this waste the gas pressure in this vicinity, which only last year showed 140-pounds pressure, is now less than fifty pounds in many of the wells.

CELEBRATES ANNIVERSARY.

The tenth anniversary of the dedication of Zion's Lutheran church at the corner of Hanna street and Creighton avenue, was celebrated yesterday, and the big edifice was filled to the doors at the three services. Rev. Luehr, pastor of Zion's church, officiated at the morning and afternoon services, and Rev. Philip Wembsganss, of Emmaus church, officiated in the evening, at which time a union service of all the Lutheran churches in the city was held. Zion's church is a branch of St. Paul's congregation and its first pastor was Rev. Juengel, who served until about two years ago, when he retired from the ministry. The present pastor is Rev. Luehr.

RAILWAY COMPANY FINED.

New York, Oct. 21.—A Lima, Peru, dispatch says: The Peruvian government has fined the English Railway company £300 on account of the accident which took place near Lima a few days ago, in which two persons were killed.

MRS. M'KINLEY IMPROVING.

Canton, Ohio, Oct. 21.—Surgeon General Sternberg, of Washington, left last night for Columbus, where he goes on official business. He was a guest at the McKinley home yesterday. It is given out that he stopped merely as an old friend of the McKinleys to make a social call on Mrs. McKinley. She is said to be "doing nicely." There was no change in her condition that called for the presence of Surgeon General Sternberg in consultation.

WANT A CHURCH AT FAIR.

St. Louis, Oct. 21.—All the churches representing the St. Louis Evangelical alliance, Archbishop Kane, of the Catholic arch-diocese, and practically all of the religious societies and interests of the city have presented a petition to the world's fair management for the erection in the world's fair grounds of a suitable building for the holding of religious meetings, conventions, etc., and for the display of such exhibits as the various bodies may desire to make.

PUSHING LINE WESTWARD.

(Huntington Democrat.)

S. L. Nelson, vice president and general manager of the Fort Wayne and Southwestern Traction company, was in the city Saturday, en route to Kansas City. After making a tour of inspection of the company's properties, he stated that twenty-five or thirty teams will be put to work on the line west of the city next week. Thus far the company has not purchased the towpath of the Wabash and Erie canal, owned by A. N. Dukes, of Peru, but an offer has been made. The sum offered is not stated, but it is understood it is the amount which will be required to grade another right-of-way. When asked in regard to his company's plans for entering Fort Wayne, Mr. Nelson said that nothing definite has as yet been decided upon. Of course they hope to secure right-of-way on Harrison street. In case this is not secured other plans must be considered. Mr. Nelson was asked whether there is any chance for Huntington to secure the main offices of the company. He said that that very matter was under consideration as since power house, shops and barns are here Huntington would be the logical center of all business interests connected with the line.

OUSTED FROM CHURCH.

Boston, Oct. 21.—Because he became a citizen of the United States and swore to uphold the constitution of his adopted country, James Jackson, of Cambridge, has been suspended from membership in the Second Reformed Presbyterian church, of Boston, by Rev. J. M. Foster, pastor. The New York Presbytery of the church at its fall meeting in Boston last Tuesday confirmed the sentence, refusing to sanction the action of Rev. S. G. Shaw, pastor of the First Reformed Presbyterian church, of Cambridge, in admitting Jackson to membership in his congregation after Jackson's suspension. Jackson is a native of Scotland and came to this country in 1890. He joined Foster's flock and was elected an elder. All elders are obliged to undergo an examination as to fitness for responsibilities conferred. While he was being examined the fact leaked out that Jackson had become a citizen. He explained that his wife had made a visit home in 1900 and that he had become a citizen to avoid question as to her right to land here on her return, but to no purpose. Rev. Foster said: "It is true that we look upon the constitution of the United States as an immoral document and an insult to the Almighty. We recognize Jesus Christ as the king of all nations. The constitution does not even mention His name and makes no reference to Him or to the Bible, which is His law. We refuse to accept the constitution thus defective and cannot swear allegiance to it."

In 1891 the suspension of certain members for swearing to uphold the constitution resulted in the withdrawal of over 2,000 members from the church.

TRAGEDY AT A DANCE.

Marion, Ind., Oct. 21.—Harley Marshall's home, four and one-half miles northeast of Upland, this county, was the scene Saturday night about 9:30 o'clock of a tragedy. Marshall, who expected to have a sale this week, and move away, was giving a dance as a farewell to his friends and neighbors. Arzie Deeren, an enemy of Marshall, appeared at the dance, and the latter took offense at his presence there. A heated controversy arose, and Deeren shot Marshall. Three shots were fired at him. Each took effect in Marshall, one in each arm and the other in his chest near the heart. Lee Larkins, a bystander, was struck in the chest by the bullet, which grazed Marshall's arm. Both Larkins and Marshall will die. Sheriff Bradford and deputies were summoned from Marion, and located Deeren at the home of his father, one mile northeast of Upland. Deeren was brought to jail here. Marshall and his wife recently separated and it is rumored the enmity between Marshall and Deeren was due to that episode. Marshall is about 40 years old, Larkins 25 and Deeren 21.

MARRIES FOURTEENTH WIFE

Barbourville, Ky., Oct 21.—James Meridy has proved that No. 13 is no more unlucky than any other number. He was divorced from his thirteenth wife October 15 and married his fourteenth an hour later. Meridy is 40 years old and in appearance resembles Buffalo Bill. Four of his wives are dead and nine have been divorced.

SHAMROCKS WIN AT TIFFIN, O.

At Tiffin, O., yesterday afternoon, the Shamrocks defeated the crack Tiffin team by a score of 9 to 0. Tiffin has been beaten but four times this season—twice by the Shamrocks, once by the Springfield Reds, and once by the Dayton league team. Robbins and Tieman were in the points and the Buffalo battery put up their usual fine game. Robbins was at his best, and he was given fast support. Robbins, McDarby and Romary led the stick work. Romary and Cherry made sensational catches of foul balls in the crowd. Boseker's one-handed stop of a drive over second was one of the features. In the third inning Tiffin had men on second third, and no one gone, but could not score. With the two on base a Buckeye hit a fly to Hicks in center, and he made a great throw to the plate, cutting off the runner trying to score from third. In the ninth Tiffin opened up with a two-bagger. In this inning Jack Smith cut off Tiffin's chances of scoring by fast fielding to the plate of a ball bound over Robbins' head. Tieman, who has been putting the timber to the ball, made two terrific drives to right, but both were captured. Besides pitching great ball Robbins secured three hits—a single and two two-baggers. It was an ideal Indian summer day and the game was witnessed by a large crowd. The score.

STONED A STREET CAR.

Last evening a street car passing the corner of Jefferson and Lafayette streets was attacked by some boys who stoned the car quite vigorously. Luckily no one was hurt, although several windows of the car were broken and dents where the stones struck are plainly visible on the woodwork. The electric lights were not lit at the time and neither the passengers nor the car crew could distinguish any of the miscreants, who ran away immediately as they discharged their volley of missiles. The police have the matter in hand and if the perpetrators of the outrage can be discovered they will be severely dealt with.

SEES NEW CURE FOR CANCER

BLOOD OF MALARIAL PATIENTS AN ANTIDOTE.

Professor Loeffler Suggests the Inoculation of Cancerous Subjects as Rational.

Berlin, Oct. 21.—The injection of malarial blood as a scientific cure for cancer is proposed by Dr. Frederick Loffler, professor of hygiene in the ancient Royal University of Griefswald, Prussia. Professor Loffler is the German pathologist who discovered the bacillus of diphtheria. He finds that amid tropical conditions most conductive to the contraction of malaria cancer is of extremely rare occurrence, and has been led to the conclusion that when malarial poison is administered as a theapeutic it acts as a safe antidote to all forms of cancerous disese.

While he calls "the remarkable infrequency" of cancer among the negroes it the United States and other African populations is cited as one of the chief arguments in favor of the new theory. Speaking to the Record-Herald correspondent Professor Loffler said:

"Realizing that malaria is not only capable of infecting the human system, but also of occasionally counteracting the ravages of other diseases, the idea occurred to me of attacking cancer with the aid of a malarial person. It has been established that malaria, when artificially produced by hypodermic or internal injections of the blood of malarial patients, can be arrested by the prompt administration of quinine. This accordingly suggests the innoculation of cancerous persons either by means of the malarial mosquito itself or with the blood of patients afflicted with malarial infection.

"Previous attempts to cure cancer through vaccination with other infectious substances have not only met with poor success, but have been accomplished with great danger because of inability to control the antidote. Among the most notable of these attempts is the one based on the theory that tubercle bacilli and the bacillus of cancer excluded each other. In tropical lands, where malaria flourishes, cancer is seldom known. In Borneo, after ten years of close observation, not a single case has been discovered.

"Let me impress on my fellow practitioners everywhere that my proposal has not advanced beyond the experimental stage. I desire their co-operation in working it out. Of especial value will be the assistance of those who come in contact with diversified forms of cancer and of those who have their practice in the tropics."

BRICK BY EXPRESS.

Terre Haute, Ind., Oct. 21.—Probably the largest and most peculiar consignment for long distance by express on record was that of two carloads of brick which passed through here over the Big Four Saturday from St. Louis to Augusta, Maine. The express charges were $1,025. The aggregate weight of the two loads was 55,000. A contractor at Augusta is doing some work for Governor Hill, of that state, and there is a time limit on his contract. A certain kind of brick is specified in the contract, and St. Louis was the only place where he could get the number needed at once. He could not afford to wait for brick to come by freight, and ordered it sent by the Adams Express company.

JOHN HUSTON KILLS HIMSELF.

Connersville, Ind., Oct. 21.—John Huston, son of the late William Huston, and a member of one of the wealthiest and one of the most prominent families in this section of the state, died at his mother's home, north of this city, last night, from a self-inflicted bullet wound. Mr. Huston, who was about 30 years old, had been melancholy for some time over his inability to conquer his thirst for liquor, and Saturday night at 8 o'clock sent a bullet through his head. He lingered for twenty-four hours and died without regaining consciousness. He was a relative of J. N. Huston, who was United States treasurer under President Harrison.

EDITOR M'HUGH RELEASED.

Dublin, Oct. 21.—Patrick A. McHugh, member of parliament for the north division of Leitrim, who was sentenced April 23 to six months imprisonment as a first class misdemeanant, for publishing in his paper, the Sligo Champion, seditious libels calculated to interfere with the admission of justice, was released from Kilmainham jail today. Mr. McHugh was accorded an enthusiastic reception by a large crowd of people who repeatedly cheered him, and eagerly crushed forward to shake his hands. The lord mayor of Dublin, Sir Thomas D. Pile, a numerous deputation from Sligo and John O'Dowd, member from Sligo, and John O'Donnell, member from South Mayo, were among those who welcomed him to liberty. Mr. McHugh drove in the lord mayor's carriage, followed by a line procession of carriages, to a hotel, where a luncheon was given in his honor. Mr. McHugh will sail for New York with John Redmond and John O'Donnell on the steamer Majestic, which leaves Queenstown Thursday.

CANDIDATES FOR THE PURPLE.

London, Oct. 21.—Candidates for the "purple" at the consistory which the pope usually holds about Christmas time, according to the Rome correspondent of the Pall Mall Gazette, are arising everywhere, their numbers seeming to increase in proportion to the distance from Rome. The United States, for instance, besides the candidates of long standing, Archbishops Corrigan and Ireland, who represent two opposite tendencies in the American Roman Catholic church—has on this occasion two additional aspirants for the red hat. There are only four vacancies in the college of cardinals, and the American prelates are thought to have few chances of selection, as the pope is credited with a determination not to have more than one cardinal in the United States, fearing that the friction and antagonism will be difficult to harmonize and might be fatal to Catholicism in America.

CROWN PRINCE COMING.

New York, Oct. 21.—According to the World there is possibility that Crown Prince Wilhelm of Germany will visit the United States, and particularly New Jersey, about April and May of next year. Emperor William is now having constructed at a shipyard in New Jersey a new yacht, ordered through the German minister at Washington. He intends ultimately to give the yacht to the crown prince, and on that account is desirous of having the son present when the trial trip is made. He also wants the prince to study American methods in ship building. The yacht will be ready in April. The crown prince, if he comes, will be accompanied by several naval officers.

THE PRESIDENT'S TRIP.

Washington, Oct. 21.—President Roosevelt, accompanied by Secretary Cortelyou, Assistant Secretary Barnes and one or two members of the white house staff, will leave this afternoon via the Pennsylvania railroad for Farmington, Conn. The party will travel in a private car attached to one of the regular trains. The president will spend a brief time at Farmington with his ster, Mrs. Cowles, before going to New Haven, where he is to receive the degree of LLD. from Yale. Inasmuch as the trip is a private one, no details concerning it are made public.

PLAGUE RAVAGES FOO CHOW.

London, Oct. 21.—The Church Missionary society has received mail reports showing that the bubonic plague is ravaging Foo Chow and vicinity. Fifteen hundred cases of the disease are reported daily, and for a couple of weeks upwards of a thousand coffins have been carried out of the city gates each day.

LATE MASTER OF ROLLS DEAD.

London, Oct. 21.—Sir Archibald Levin Smith, who recently resigned the post of master of rolls, on account of ill-health, died last night in Merayshire, Scotland. He had rowed thrice with Cambridge against Oxford. He was born in 1836.

TO BUILD A CHURCH.

St. Petersburg, Oct. 21.—Father Kochuroff, a priest of the orthodox church, residing in Chicago, has been most successful in collecting funds for the erection of a church building in that city. He will start for home shortly with a draft for $30,000.

CEASES PUBLICATION.

ENDS LIFE OF ILICIT LOVE

MRS. CHARLOTTE NICHOL DIES IN CHICAGO HOTEL.

Dr. Orville Burnett, Her Lover, Also Tries to Pass Out of the World With Her.

Chicago, Oct. 21.—While grieving over the dual life she was leading with Dr. Orville Burnett, a prominent Chicago dentist, Mrs. Charlotte Nichol, wife of W. L. Nichol, jr., commercial agent of the Nashville, Chattanooga and St. Louis railroad, committed suicide yesterday in the Marlborough hotel. Burnett also tried to end his life at the same time, but was unsuccessful. The two were found in their rooms, both stretched across the bed, the woman dead, with Burnett with his neck pierced with a hat pin, a bottle of morphine clutched in his hand and the gas turned on from every one of the six jets in the suite. Dr. Burnett is still alive and has been arrested. In one of the rooms was found a note written by the woman, which told of her reason for the act. She said:

"To whom it may concern: I did it because I loved him better than anything on earth and he loved me, and we could not be separated. Good-bye, Charlotte."

The note, supplemented with a statement made by Dr. Burnett, tells of the tragedy enacted by the two lovers. According to the dentist's story he met Mrs. Nichol while yet a young girl in Nashville, Tenn., and fell in love with her. Burnett moved to Chicago and married several years afterward. "Our love was still strong for each other,' said Burnett. "and she moved to Chicago to be near me. We were together nearly every day. There seemed, however, to be a constant remorse on her part on account of the dual life she was leading. Saturday we went down town together and after having several drinks she proposed suicide to me and we went to the Marlborough hotel and she produced a bottle of morphine she had hidden in her dress. She again asked me to die with her and I consented. Then she swallowed nearly all the contents of the bottle and handed it to me. I drank what was left, but believing that I had not taken enough to prove fatal I tried to end my life by sticking the hat pin into my neck. I saw this also was going to be a failure, so a turned on all the gas and laid down to die." Burnett stated that his wife knew nothing of his attachment for Mrs. Nichol.

A policeman who was sent to the Nichol home at 6518 Minerva avenue last night, to notify Mr. Nichol of the tragedy, found no one there but the two little children of the dead woman, one a boy of 8 and the other a little girl of 4 years. They told the policeman that their father was out looking for their mother, who had been missing all Saturday night and yesterday.

Dr. Orville S. Burnett was born at Hastings, Neb., about twenty-eight years ago. He was married seven years ago to Grace Anderson, also of Hastings. She had been his playmate and schoolmate from childhood. Immediately afterward the family moved to Denver, Orville, the son, also going. His father was a wealthy stock man, and the young man lived in ease for years. Finally his wife urged him to take up a profession and he decided to become a dentist. About three years ago he came to Chicago to study.

Dr. Burnett was held to the grand jury by a coroner's jury today. It was charged that he could have kept her from her act had he tried, and that his conduct should form the basis of an investigation by the grand jury. A physician at the inquest testified that the morphine Burnett had taken was not sufficient to hurt him and that the wound in his neck was not visible to the naked eye.

MADE SPLENDID RECORDS.

Five members of the mailing department of the Fort Wayne postoffice—Messrs. T. W. Blair, George B. Humphreys, Jesse L. Braden, Elson Brosius and W. H. Smith—took the examination prescribed by the department last Thursday, conducted by Chief Clerk W. L. Poe. Mr. Poe has made his report to Superintendent O. T. Holloway, who has written Postmaster Page, paying a very high compliment to the force in the mailing department. A total of 667 pieces of mail were thrown by each of the gentlemen, and the grades of the applicants ranged from 98.25 to 100 per cent. Mr. Holloway states that the examinations show a splendid record and a thorough knowledge of the section in question, and that the showing is one of the best ever made in any office.

AGED SOLDIER WINS A BRIDE.

Kokomo, Ind., Oct. 19.—Despite vigorous protests of relatives on both sides, Captain Garrigus, aged seventy, Indiana commander of the G. A. R., has won his suit for the hand and heart of Miss Marie Thomas, aged seventeen, and they will be married next Wednesday at the home of the bride's guardian in Henry county. The courtship began six months ago when Miss Thomas was an inmate of the home of her uncle, Henry Edwards, near this city, who raised her from infancy. Adjoining the Edwards home is a farm owned by Captain Garrigus, and clandestine meetings of the pair resulted in betrothal. Letters from the aged lover to Miss Thomas were found by Mr. Edwards and a stormy scene followed when he and Garrigus met. Miss Thomas left the Edwards home and since has lived with her guardian. She will be eighteen on her wedding day.

FRENCH IDEAS OF NEW YORK.

Le Matin, a Paris paper of considerable circulation, recently printed an article on New York city and the wonderful things to be seen there. Some of the statements are a trifle tall, as will be seen from the following extracts:

"The Americans are decidedly insatiable. While we are still using steam engines for our railways they have long ago tasted of the benefits of electrical traction, and now they are commencing to abandon electricity for compressed air.

"The New York line of Manhattan uses now, to the exclusion of all other modes, compressed air engines, and it appears that the results are so marvelous that the transatlantic papers proclaim steam as a thing of the past and electricity old-fashioned.

"The air is compressed in what the American calls a 'power station,' something like a gas factory. It is compressed until it attains an expansive power of 1,500 to 2,000 kilos per square centimeter that it occupies. It is then transferred on board the locomotive, where it is stored in a large steel tank, which replaces the boiler. There it is furthermore compressed by the use of reduction valves, and, reaching a certain pressure, it gets heated. It is then ready for use.

"In brief, to listen to the Americans, it is the locomotive long dreamed of."

NESTS OF HAIRPINS.

A curious preference of certain pigeons for the use of metallic objects in building their nests is noted by M. Maurice Dusolier in the Revue Scientifique. He asserts that several pairs of these birds that he has observed in Paris have raised their young in nests made entirely of hairpins. These articles they collected in the paths of the Luxembourg. The young pigeons grew up normally as they would in a softer nest. M. Dusolier believes that there is a useful suggestion in this for pigeon fanciers, who are often overanxious, he thinks, to see that their charges have soft material for their nests.

GIRL BURNED TO A CRISP

BROTHER'S ATTEMPT AT RESCUE FUTILE.

Tragedy at Lake Wawasee—Little Ones Locked in Home By Mother, Who Attended a Dance.

Goshen, Ind., Oct. 21.—Helth within a burning house by bolted doors, locked by a thoughtless mother who left her children to attend a dance, the six-year-old daughter of Mrs. Joseph Gordy perished in the flames which destroyed the Gordy home at Lake Wawasee Saturday night, despite the efforts om her only companion, a brother three years her senior, to save the little one's life. Although badly burned about the face and hands and almost suffocated by the smoke, the lad finally managed to make his escape by a window. It is believed he will recover. The body of the little girl was burned to a crisp and the blackened and distorted remains could not be recognized even by the heart-broken mother who returned before the fire was extinguished.

Mrs. Gordy, who has not lived with her husband for several months, started for a country dance early in the evening, and fearing burglars, securely locked all the doors of the home. The fire evidently did not start until several hours later and the origin is still unknown.

According to the story told by the little Gordy lad, his sister and he fell asleep soon after the departure of their mother. Several hours later he was awakened by a bright light in the sleeping room and leaped from the bed to discover the house in flames.

The first thought of the little fellow was for his sister. He rushed to her as she lay asleep and dragged her from the bed. He was unable to arouse her and the flames closed in upon the children. Gasping and struggling, he succeeded in pulling the little girl to a window, but was compelled to release his hold in order to force up the sash.

The task was difficult and by the time the window was raised the room was filled with flames and smoke. Almost unconscious the lad managed to crawl from the window to the ground, but was unable to lift his sister from the floor.

When assistance arrived the entire house was in flames and soon burned to the ground. Mrs. Gordy is prostrated by the tragedy and her condition is critical.

CALLS KITCHENER HANGMAN.

New York, Oct. 21.—A London special to the Times says:

Referring to the fresh outbreak of Anglophobia in Vienna, a correspondent in the Australian capital quotes the especially influential Catholic organ, the Vaterland, which publishes an article headed, "Lord Kitchener as a Hangman." It says the commander-in-chief of the British forces in South Africa, in despair of being able to conquer the Boers by honest war, has for a long time had recourse to brutality. His bloodthirstiness was formerly restrained by the British government, but it now appears that a free hand has been given to him. The Vaterland goes on to say that the announcement that Commandant General Botha will meet violence by reprisals will convince all that the Boers are not intimidated, but only exasperated, by Lord Kitchener's inhumanity. The sanguinary seed sown by the British commander will produce a harvest of blood, and none can blame the Boer leaders if they have recourse to a terrible retribution.

SLAYS GIRL; KILLS SELF.

San Francisco, Oct. 21.—Mabel Franklyn Mayer, aged thirteen, was killed early today at the home of her parents, by John Stano, aged twenty-two years, who then placed the revolver to his own head and put an end to his life. Stano, who is a native of Smyrna, Turkey, a waiter by occupation, was formerly employed on the United States transport Meade. He was infatuated with the Mayer girl

PEER TO WED A BEAUTY.

London, Oct. 21.—The announcement of the engagement of the duke of Hamilton and Brandon to Nina Poore, one of England's beauties, has caused widespread interest. The duke of Hamilton and Brandon is premier peer of Scotland and hereditary keeper of Holyhood palace. A few years ago he was a poor lieutenant in the navy, but succeeded to the titles and the estates in 1895.

COLOMBIAN REBELS LOSE.

Kingston, Jamaica, Oct. 21.—Letters received here from Panama say the Colombian rebels lost heavily in a battle near there last Tuesday. The rebels are concentrating in a camp in the neighborhood and both sides are preparing for a clash which, it is expected, will large determine the fate of the revolution.

THE MARKETS.

Chicago, Oct. 21.—Wheat opened steady today with December ½@½c to ⅝c higher at 71¼c to 71½@71⅝c on improved cables. Trade was not active, yet there was an unsettled feeling at the start and on the few deals made early prices fluctuated rapidly. December sagged with a small decline in cables to 70¾@70⅞c, but on consideration of a considerable increase in world's shipments it sold back to 71⅛c. The local demand was only moderate and commission houses made few sales. Local receipts were 156 cars, none of contract grade; Minneapolis and Duluth reported 1,031 cars, making a total for the three points of 1,187 cars, against 1,000 last week and 1,270 a year ago. The amount on passage showed a decrease of 1,472,000 bushels. World's shipments were 8,732,000 bushels against 7,708,000 bushels last week and 6,981,000 bushels a year ago.

A sharp decline in cereals and a general liquidation by longs brought December wheat to a weak close, ⅜@½c lower at 70½c.

December corn opened dull, unchanged to a shade lower, at 56⅛@56⅛@56¼c on steady cables. Commission houses were doing practically nothing and almost the only dealing was the changing of December for May. On small covering for shorts December sold to 56⅜c, but sagged away again to 56c at the end of the first hour. Receipts were 254 cars.

December corn followed wheat in the decline and closed weak, ¾@⅞c depressed, at 55⅞@55½c.

December oats were profoundly dull, there being no quotation during the first hour. May had a little scalping trade and opened unchanged at 37½c and fluctuated within ¼c. Receipts were 195 cars.

Dullness was the only feature in the provisions pit at the opening. January pork started 2½c up at $15.15 on a steady hog market and sold to $15.22; January lard unchanged to 2½c higher at $9.02½ to $9.05, and January ribs a shade higher at $7.85 and advanced 2½c.

THE CLOSE.

Prices at the close were as follows:

Sheep and Lambs—Receipts, 93 cars; market dull; lambs, 10@15c lower; tops, $4.80@5.00; culls to good, $3.00@4.75; feeding lambs, $3.75@4.25; sheep, mixed, $1.50@3.40; wethers and yearlings, $3.50@3.75; heavy ewes, $3.40@3.50.

THE DAY ON WALL STREET.

New York, Oct. 21.—Dealings were fairly well distributed at the opening and some good sized blocks changed hands, but the level of prices was almost the same as at Saturday's close. Very few stocks changed more than ⅜.

Union Pacific, Southern Pacific and People's Gas were strong features, the latter rising 1⅝. Amalgamated Copper declined 1⅜ and Sugar a point. The western stocks were lower, but the Southwesterns gained.

Sugar rallied again to above Saturday's.

These diverse movements confused the traders and business became dull pending a definite tendency.

The selling pressure decreased gradually and an upturn was aided by a rise from the lowest of 2¼ in Northern Pacific preferred. Sugar rose a point. Pullman jumped 5 on one transaction. International Paper preferred lost 2, the common 1, North American 2 and General Electric and Lackawanna a point. With a reaction of 1⅜ in Northern Pacific preferred prices yielded again on lethargetic trading.

There were intervals of several minutes at a time when no sale was made on the exchange. Amalgamated Copper extended its decline to below 90. People's Gas and Minneapolis and St. Louis reacted about a point. New Jersey Central and International Power each rose 1 and Northwestern preferred 2. The general list was inert.

Free offerings of the general market were inspired by the steady liquidation of Amalgamated Copper, which sold nearly 3 points below last week's close. The Pacifics, Tractions and St. Paul bore the brunt of the other selling, which lowered some of them a point from their forenoon highest.

There was some active selling of Missouri Pacific, which carried it down an extreme 1¼. Minneapolis, St. Paul and Sault Ste. Marie preferred lost 2½, New York, Chicago and St. Louis 1½, National Lead ⅞ and the preferred 1⅛.

Prices generally were carried below Saturday's level. Great Northern preferred advanced 1⅝ and Northwestern 1¾ in the late dealings.

Bonds were firm.

The closing was heavy.

NEW YORK MARKETS.

New York, Oct. 21.—Flour—Receipts, 35,450 bbls; sales, 3,700 pkgs; state and western market less active and a shade easier with grain.

Wheat—Receipts, 83,650 bu; sales, 2,350,000 bu; market opened up on drouth in Argentine, but turned weak under large northwest receipts and selling for long account. Dec., 76 11-16@77⅝c; May, 79¼@80c.

Rye—Market steady; state, 57@58c, c. i. f. New York car lots; No. 2 western, 60½c, f. o. b. afloat.

Corn—Receipts, 15,000 bu; sales, 50,000 bu; market quiet and easier by reason of disappointing cables and weather west. Dec., 61¾@61¾c.

Oats—Receipts, 76,500 bu; market slow and barely steady. Track white, 40@46c.

Beef—Market steady.

NEWS OF CHURCHES

The regular weekly meeting of the Christian culture class will be held this evening at 8 o'clock in the First Baptist church, Rev. J. N. Field presiding. Rev. Field will make an address on the subject, "The Church Achieving Its Independence," and in addition there will be three five-minute addresses by members of the class. Miss Anna Philley will tell of the Twelve Apostles, Mrs. Henton will speak of the three annual feasts of the Jews, and Mr. Harper will sum up the great facts in the first and second chapters of Acts. Rev. Field's theme will be from the third and fourth chapters of Acts, and will deal with the miracles performed after Christ's ascension, the arrest of the Apostles and the beginning of the persecution of Christianity.

Mrs. Fickes' class of girls in Westminster Presbyterian church will an oyster supper in the church parlors next Friday evening.

The joint council of the Third Presbyterian church will hold an important business meeting this evening at the residence of the pastor, Rev. J. A. P. McGaw.

Services preparatory to communion next Sunday will be held Wednesday evening in Westminster Presbyterian church.

The women's Bible meeting of Wayne Street M. E. church will be held tomorrow afternoon in the Sunday school room of the church. Mrs. Lem R. Hartman will be leader.

The Presbyterian ministers of the city will attend the postponed meeting of the Presbytery at Kendallville Thursday.

A number of the ministers who will be in attendance at the conference of the Evangelical church at Christ's church this week will occupy city pulpits next Sunday.

LITTLE SEAL WAS CHASED.

A few years ago some fisherman were following their vocation off a harbor on the Maine coast when they observed a commotion on the surface, and soon made out a seal leaping from the water as if followed by some enemy.

It came near the boat, swimming around it several times, and then, making a leap, the men saw that it was being chased by a large fish.

One of the fishermen dropped his line, and, stepping into the bow, leaned over and held out his hands. To his amazement the seal immediately dashed toward him, and with his help scrambled out of the water into the boat, just in time to escape the sharp weapon of a swordfish that darted by, its big eyes staring, probably in wonder at the method of escape, to its fishy intelligence being evidently a case of out of the frying pan into the fire.

But the little zeal apparently knew better, and it need not be said that its confidence was not misplaced, as the men were so pleased with its action in coming to them they kept it as a pet, and the seal became a familiar object about the shore.

QUEER NEIGHBORS IN A TREE.

John Widgeon, the field collector of the Maryland Academy of Science, say that birds and reptiles sometimes live in close proximity to each other. Several years ago while exploring Kent Island I ventured up a forty-foot hickory tree to inspect a large fishhawk's nest. When almost to the nest I was surprised to see an enormous black snake wrapped around the heavy sticks at the bottom of the bulky nest. The snake, although at such an unusual distance from the ground, did not lose its presence of mind, but dropped gracefully from limb to limb until it reached the ground. Continuing to the nest, I found a large family of field mice. Above this was a nest full of little sparrows, and upon the top of the hawk's nest there were three young hawks just hatching.

Miss Blank—Oh! my, what did he die of?

Clerk—Some kind of an eruption, I believe.

A HEAVY LOSS.

Manager—Hurry up or we'll miss our train.

Leading Lady—But I've lost my diamonds and purse.

Manager—Oh! never mind.

Leading Lady—But I had 30 cents in the purse.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 2701 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

GETS BETTER JOB

GEORGE DEHNE ADVANCED IN RAILWAY SERVICE.

CONDUCTOR MEYERS DEAD

SUMMONS CAME SUDDENLY AND UNEXPECTED.

A CHANGE OF OPERATORS

I. L. BOLT SUCCEEDS HARRY TAYLOR AT THE KEYS.

George C. Dehne, a Fort Wayne boy, is rapidly rising in the employ of the Chicago and Alton road. Saturday he was notified oh his appointment to the responsible office of traveling secretary to the general superintendent of the road. Few men of the age of Mr. Dehne—twenty-two—are entrusted with the duties of so responsible a position and his appointment is quite a compliment to him. George Dehne is the son of Ernest J. Dehne, forman of the Pittsburg pattern shop, and he was reared and educated in this city. After a course in the business college, he took a position as stenographer with Master Car Builder J. A. Graham, of the Pittsburg, and later served in that capacity in Road Foreman C. R. Colmey's and Chief Car Inspector W. W. Todd's offices and went from the latter to the shop clerk's office, under J. H. Hobrock. He went to Chicago to work for the Alton less than a year ago and, as stated, his rise in the employ of that company has been rapid.

TRAIN LOAD OF BULLION.

Four Union Pacific cars, loaded with bullion for the Philadelphia mints, passed through the city over the Pennsylvania at 9 o'clock this morning, running as a special and on fast schedule.

CONDUCTOR DIES SUDDENLY.

Nickel Plate employes were shocked last night upon receipt of news of the death of J. R. Meyers, of Bellevue, one of the oldest and best known conductors in the employe of the Nickel Plate. Mr. Meyers' death was most sudden and unexpected. He left this city early yesterday morning with his train, in his usual health, so far as any of the train crew were able to tell. The deceased never resided in this city, but his duties brought him here two or three times each week and he was known to all the Nickel Plate men and to many of the employes of the other roads. He was a most excellent man and very popular with his acquaintances.

A BIG LIST OF PATIENTS.

Dr. B. F. Wagner, medical examiner of the Pennsylvania Voluntary Relief association, is a very busy man nowadays. The company is hiring a good many men, all of whom have to be examined at Dr. Wagner's office, and these examinations consume two or three hours each morning. In addition to these duties the doctor is expected to occasionally call upon every sick man who is a member of the association. This is, in itself, quite a task at present, because of the many names on the sick list. Today there were eighty-five sick, twelve men who had exceeded the limitation of the association, fifty-two weeks, and were on the company's relief list, and six men who had exhausted all sick relief and were simply carrying the life insurance part of the association on the lists. Dr. Wagner keeps track of all these people.

WORKING TWELVE HOURS.

In order to facilitate work and to give the men employed sixty hours labor each week the ten men in the night gang at the Pittsburg boiler shop will hereafter work twelve hours per night the five first work days of the week. They will not work on Saturday and Sunday nights.

A BUSY SUNDAY.

As usual this fall, Sunday was a busy day with the transportation department of the Pennsylvania. During the day and night there were fifty-seven trains handled on the western division of the road, and to do it every engine that could "turn a wheel" was in service at some hour during that period.

WILL NOT COME HERE.

Superintendent of Motive Power F. D. Crawford, of the Pensylvania, went to Birmingham, Pa., yesterday to join President A. J. Cassatt and accompany him on an inspection tour of a part of the Pennsylvania company lines. The itinerary of Mr. Cassatt, as received here, does not include a visit to Fort Wayne, and it was on this account that notice of his inspection tour was not received here except so far as it affects the Grand Rapids and Indiana road. On the trip more attention will be paid to properties acquired recently than to such old lines as the Fort Wayne. Mr. Cassatt and party will go to Grand Rapids, via Toledo; thence over the Grand Rapids and Indiana road to LaOtto, where they will take the Eel River road and make a close inspection of that property. From Logansport the inspecting party will go direct to Pittsburg via the Panhandle. The trip over the Grand Rapids and Indiana road will be made Tuesday afternoon, leaving Grand Rapids on a special train at 2 o'clock and reaching the Eel River road at 5:40 o'clock.

TAYLOR RESIGNS.

Operator Harry Taylor, of Master Mechanic G. S. McKee's office, has resigned and will leave in a day or two for Mar Rouge, La., to take a position with the Missouri Pacific company. Mr. Taylor has been here about a year, coming from Tipton, Ind. He is succeeded here by I. L. DeBolt, of Toledo, who has been working the "trick" two weeks, during the absence of Mr. Taylor on his vacation.

INDUSTRIAL NOTES.

Brakeman Henry Spath, of the Grand Rapids, is sick and off duty.

Pittsburg Engineer David Raidy has moved into his new home on Bass street.

George D. Anderson, east yards freight clerk, is off duty on account of sickness.

Oscar Wuler, of the Pittsburg machine shop, is off duty on account of injuries received Saturday.

R. Hartnett, of the Pittsburg shops, was called to Chicago yesterday to see a relative who is very sick.

Night Foreman W. S. Fitch, of the Pittsburg freight house, has returned to work after a two weeks' vacation.

E. Croninger, of the Pittsburg round house, will visit friends in Mansfield, Ohio, a few days this week.

Switchman Fred Thiebold, of the Pittsburg, is off duty on account of the sickness of some member of his family.

Charles Philley, who had been sick about two weeks, resumed his duties in the Pittsburg blacksmith shop this morning.

Brakeman F. Gallivan is sick and Brakeman A. G. Rosenburg has left the city on a visit. Both are Nickel Plate employes.

Henry Hille resumed his duties at the Wabash baggage room this morning, after an absence of several weeks on account of sickness.

Pittsburg Engineer J. C. Pearson, who had been off duty several days on account of sickness in his family, reported for work this morning.

Al Fereter, Pearl Biegler, H. Peipenbrink, F. Gleusencamp, W. F. Krudop, H. C. Roan and George Bireline, Pittsburg shopmen, are sick.

Louis Hass, assistant foreman of the Pittsburg freight office, resumed work this morning after a two weeks' absence on account of sickness.

L. C. Brudi, of the Pittsburg shops, is spending a day or two in the country. Louis Gronau, of the same shop, is looking after some private business.

Assistant Master Car Builder Frank Swerlingen resumed his duties at the Pittsburg shops this morning, after an attack of pleurisy, which confined him several days.

On account of repairs to the boilers the Bass blacksmith shop suspended operations in part Saturday noon. The shop was put in full operation again this morning.

Engineer F. M. Redman, of Wabash switch engine No. 34, went to Peru yesterday to spend a few days and Engineer Swartz is taking his place at the throttle.

C. E. Romy, who had a finger hurt a week ago, and J. H. Beitzell, who was sick a few days, resumed their respective places in the Pittsburg planing mills this morning.

Mr. and Mrs. Ed Bunck, of 115 Smith street, are entertaining a baby boy, who arrived at their home a few days ago. Mr. Bunck is employed in the Pittsburg planing mills.

N. A. Peltier, Pittsburg fireman, is nursing a painfully wounded foot and will be off duty a few days. The member was injured Saturday while Mr. Peltier was out on his run.

W. S. Cutshall, clerk at the Pittsburg shops, is expected home from Pennsylvania today. With his wife, Mr. Cutshall has been visiting relatives in that state eight or ten days.

Engineer W. H. Hilliker reported for duty on the Pittsburg yesterday. He had been off about a week on account of the illness of his mother at first and later because of a sprained back.

The Nickel Plate piledriver has gone to Cleveland to be used in making some important improvements at that city. The machine has been at work on the west end of the road a week or two.

Frank Lightfoot, treasurer, of the Bass Foundry and Machine company, is taking his annual vacation, which he will devote to a trip throughout the eastern states. He will spend a few days at Buffalo.

J. W. Wilson, of the Pittsburg machine shop, has gone to Chicago to spend a few days with friends.

The electric works this morning sent a 2,000-light dynamo and all the trimmings to East Chicago, Ind.

G. Roepke, machinist, resigned his position at the Wabash shops Saturday night. He will take a position elsewhere in a few days.

J. A. Dildine, chief motive power clerk of the Panhandle, with headquarters in Columbus, Ohio, was in the city today on railway business.

H. C. Mennewisch, a steam fitter employed at the east car shops, is off duty on account of an injured finger, the result of an accident last Saturday.

During the absence of General Foreman William Paul from the Wabash shops, Charles Z. Bond is filling that office. Mr. Bond is round house foreman.

Bert Olds has gone to Cambridge, Ohio, and J. W. Hilgerman to Celina, Ohio, to install some electric machinery built at the Fort Wayne Electric works.

Paul Miller resigned a position in the Wabash shops Saturday evening, fearing that the heavy lifting he is required to do there would hasten a malady that has threatened him for some time.

Mrs. William Palmer, of 180 Taber street, wife of the axlesmith at the Bass shops, and their two sons have gone to Sheldon, Ind., to spend a week with her aged mother, Mrs. Harkenrider.

Agent Joseph Sullivan, of the Wabash, attended the funeral of his brother-in-law in Lagro today. The deceased was a brother to Mrs. Sullivan and that lady has been at his home for several days.

Pittsburg Conductor M. Cave, accompanied by his wife and little niece, left over the Grand Rapids and Indiana road last night for a few weeks' visit with Mr. Cave's parents in northern Michigan.

Harry Fitzpatrick, who recently went to Chicago to take a position as salesman for the Sargent company, dealers and manufacturers of car supplies, is doing well and is well pleased with his situation.

Mrs. William Eggeman, wife of the Pittsburg fireman, has returned from a visit near Hoagland. Her mother and grandmother, Mrs. C. T. Lipes and Mrs. Robert Small respectively, accompanied Mrs. Eggeman home.

Contractor Otto Bengs this morning commenced the erection of a house for Fred A. Knoche, foreman at the Bowser oil tank works. The house will be located on Thomas street, a short distance south of the factory.

William Bittler, superintendent of waterworks of the Pittsburg, went to Liverpool, Ohio, this morning to start the work of putting down a driven well at the junction for drinking purposes for the towerman and other employes.

Machinist Martin Hobrock, of the Pittsburg shops, was summoned to Decatur last night by a telegram informing him of the dangerous illness of his brother, who lives with his father on a farm. The sick man has typhoid fever.

Conductor S. McMahon, who has been troubled with rheumatism for several days, is still a sufferer from that cause and is unable to perform his train duties. Conductor Long is "doubling" during the sickness of Mr. McMahon.

Walter R. Gerberding, formerly chief clerk in the Pittsburg warehouse, bade friends good bye yesterday and last evening left for Kansas City, where he will assume an important office with the Chicago and Great Northern road.

J. A. House, ex-conductor on the Nickel Plate road, has accepted employment with I. N. VanSlyke, general agent for the Mutual Union Insurance company. Mr. House is one of the best known railway men in this part of the country.

Another party of applicants for positions has passed the rigid examinations required by the Pennsylvania and their names have been added to the list of brakemen. They are T. J. Tolan, Owen Unger, Thomas Kavanaugh and C. A. Brunce.

Machinery is being placed in the new factory of the Haberkorn-Haley company, out in the east end, and the shop will soon be put in operation. The company has good reasons for believing that there will be a demand for their engines as soon as they are in shape to build and deliver them.

The painters have completed and turned over to Foreman G. A. Sziuk, of the Pittsburg blacksmith shop, his office, and this morning Mr. Sziuk and his clerk resumed their desks there after being deprived of them three or four days. The new office presents a pretty appearance.

The Fort Wayne Iron and Machine company has received an order to build a twenty-horse power gas engine for the Tobey Glove company. The present engine in the glove factory has been found inadequate to the needs of that growing institution and a larger one was necessary.

The Grand Rapids and Indiana road took 225 excursionists to Rome City yesterday. A feature of the business was a number of passengers who went to the resort just for a quiet day on the lake and not to fish, though there were many fishermen. The day was an ideal one and the lake was as smooth as "glass" during the entire day. Fishing was good only during the early morning hours and the man who did not commence that sport until later came home empty handed.

Harry P. Bitner and Miss Margaret Davidson will be married next Wednesday at Chicago. Miss Davidson's parents reside in this city and she only recently went to Chicago to live. Mr. Bitner is a Pittsburg fireman, with headquarters in this city. Both are popular with their acquaintances.

The East Car Shops' Athletic association will hold a meeting at the Neumeier hall, Lewis and Ohio streets, Saturday evening, which will be a combination of business and pleasure, and will be enjoyable to all participants. The association proposes to advance its interests in this manner and meetings of this kind will be held at regular intervals throughout the autumn, winter and spring.

Homer Honn resumed work in the Wabash blacksmith shop this morning. He had been off duty on account of the condition of his wife, who has been in St. Joseph hospital for some time, and who was taken worse last Friday. Mr. Honn also suffers from the affection of the eyes and it was thought last week that he would have to go to the Springfield hospital, but there has been an improvement and the trip will not have to be made at this time.

Boilermaker James A. Fred is again at the Wabash railway hospital in Springfield, Ill., suffering from an affection of the ears, which disease confined him there several weeks last summer. The last attack occurred two weeks ago when Mr. Fred was visiting his parents in Indianapolis, and he immediately went to the hospital. He is improving and writes that he will be able to resume work in the shops in this city November 1.

The Bowser company is receiving an unusual number of orders for oil tanks from its eastern agent, E. M. Savercool, who has twenty salesmen under his direction. Saturday the company shipped a car load of tanks to Boston, which, following close upon other shipments to Atlantic seaboard cities, is considered very good business. The business seems to be equally as good in the west and south, and everything seems to point to a record breaking sale of tanks the coming winter.

POLICE MAY FIND AN OWNER.

Indianapolis, Oct. 19.—John Miller, residing ten miles south of this city, called upon the police last evening on a strange mission. He produced a pocketbook containing a large sum of money, which he says he found eight years ago on the public highway, and which fact he immediately published in the newspapers, offering to return the pocketbook if the owner would prove it to be his by describing the book and contents. In the eight years that he has held the treasure he has received over 300 letters asking about it and giving descriptions of pocketbooks that the writers claimed to have lost. None of these descriptions fitted the particular find, and Mr. Miller has despaired of ever finding the owner. He asked the police to take up the search, and, in case the owner is not found, he requested that the money be turned over to some charitable institution. The police refuse to say how much money the book contains.

SLATERS IN COURT AGAIN

PATER FAMILIAS CHARGED WITH ROUGH HOUSING.

Same Man Whose Daughter Shot Him in the Back Some Months Ago—Mass Meeting in Court.

There was a real old-fashioned mass meeting at police court again this morning. There were present plain drunks, vags, hoboes, wife-beaters, street walkers and Jack Devany, who can not be classified.

Monroe J. Slater was charged with drunkenness, and the witnesses against him were his wife and son. It was shown that he came home and threw a book at his wife, missing her, and that he kicked at her but did not reach her. He then ordered the family out of doors, and the family went, when the police were called. The examination was going along to show that Slater had abused his family, when the judge interposed: "You can't fine a man for being drunk on his own premises. There is no evidence here to show that he was drunk in a public place. You had better change the charge to assault; I dismiss the case."

A new affidavit was speedily drawn and the same evidence was submitted. Slater took the stand in his own defense. He said he had not assaulted his wife as stated; that when he came home at 9 o'clock he met his wife on the stairway and she upbraided him; that they had some words and that he told the whole family to get out; that he had not received decent treatment from his wife or children and that their sole ambition was to keep him in jail. Apropos, it will be remembered that on the 21st of last February a similar racket occurred at the Slater homestead on Barthold street, during which Slater's daughter procured a revolver and shot her father in the back, while he was assaulting her mother. Slater was jailed and bound over to the circuit court and served three months and three weeks in jail. He stated this morning that as soon as he was safely in jail a young man of whom his daughter was enamored went to the house to board; that when he got out of jail he objected to the conduct of his daughter and the young man, but that the daughter was upheld by the mother, who said that the young folks were engaged to get married anyway; that shortly after the young man went to Marion and soon sent for the daughter, who went there and who he believes is there now, living with the young man, but not married to him. He further alleges that all his domestic troubles originated through the conduct of his daughter. This put a different light on the subject, but a fine of $5 was assessed against Slater, which was suspended as long as he kept way from the house. Mrs. Slater said that was satisfactory to her, as she intended to get a divorce and did not want to be bothered by the defendant any longer.

TWO CHOICE BIRDS.

Jeanette Walton, of Menze fame, and Rose Fields, who several months ago cleaned out a Holman street saloon with a butcher knife, were up for drunkenness. Both entered pleas of guilty and then followed a long examination at which the Misses Walton and Fields proved themselves post-graduate witnesses. The aim of the court was to discover where they got the whiskey and the court knows as much about it now as it did before the examination commenced. The girls had been riding in a merry-go-round until they got sick. Then Miss Fields called a boy whom she did not know, gave him a quarter and told him to bring her fifteen cents worth of whiskey. The boy disappeared and finally came back with some whiskey in a bottle, which they drank and the officers did the rest. Miss Fields did not know the boy, don't know where he got the whiskey and wouldn't remember his face if she saw it again. The judge administered a fine of $1 and a lecture.

OTHER CASES.

There was an ordinary charge of drunk preferred against Jack Devany, and it went pretty hard with him, as the judge tacked a fine of $50 and costs against him, which will probably hold him for a while.

Thomas Overly, who has been pretty good for a long time, was charged with drunkenness. He made an eloquent plea in justification, but was fined $1 and costs. He offered to "make a bargain" with the court by being allowed his liberty so that he can earn the money, and said he would turn in $3 a week until the fine was paid. The judge said he would see him after adjournment and as Overly is a hard working man but sometimes dissipated, it is likely that the judge modified his judgement.

Frank Wilson, who has the word hobo written on every lineament of his physiogomy, was arrested for being drunk and was given an hour to get out of town. He is a cripple and sells lead pencils, using the proceeds to buy jags with. He hobbled out of court and said the town should see him no more.

Andy Schlinker, a plain drunk, who was up a few weeks ago, was given another dose of $1 and costs, and Amos Wood suffered a similar sentence. Of all these cases tried there was no cash results, and with one exception, all the victims were in consequence of Saturday drunks.

NEWS OF THE POLICE.

William "Chippy" Klug and Frank Perry yesterday assaulted John Cerull, Nickel Plate watchman at the Walton avenue crossing and beat him up pretty badly. The boys, under the influence of liquor, came from the east on the track, and with some companions, had a real or mock fight near the watchman's shanty. Nickel Plate trin No. 3 was just about due and the watchman, solicitous for their safety, ordered them off the right of way, which brought on some words. After the train had passed the two named assaulted the watchman, who this morning filed an affidavit against them. The warrants were placed in the hands of the officers.

Superintendent Gorsline and Detective Coling are at Chicago today, testifying in a case against a man named Allerton, charged with forging a railroad pass. The arrest was made here by Detective Wilkinson but the man made some admissions to the superintendent and Coling which the railroad company wishes to use in the trial. They will return home this evening and in the meantime Lieutenant Lapp is the high mogul.

Officer McKendry is on the sick list and was not on duty last night.

A man named Farner, living at 165 Holman street, reported that someone had stolen a shotgun from his wagon while standing in front of his residence. He described the gun and asked the officers to locate it if possible.

A farmer named Irwin was in collision with a wagon near the corner of Grand and Calhoun streets yesterday. Farmer Irwin had some damage done to the vehicle which he was occupying and wants the other fellow arrested. Unfortunately for his cause nobody knows who the other fellow was.

IN JUSTICES' COURTS.

The Greely street chicken case to have been heard in Bullerman's court this morning has again been postponed, this time until next Saturday.

The house-of-ill-fame-pull still seems to be hanging fire. Warrants are in the hands of some of the constables, but returns have not been made in all the cases.

William Palmer, of Chicago, has returned home after a visit with friends in the city. Mr. Palmer was formerly with the Bowser Oil Tank works, in this city.
